PREFACE.

THIS little book does not claim to be a critical edition of the *Captivi*. Textual emendation does not come within its scope. Its only aim is to explain the difficulties in the play, to supply the necessary stage-directions after the example of the Clarendon Press *Trinummus*, and so to enable boys of the Higher Forms of our Schools to read with intelligence and interest a play which, more than any other of Plautus, may suitably be put into a schoolboy's hands. Schoolmasters usually find the Plautus-lecture the best opportunity for teaching the etymology and structure of Latin words; so I have devoted a considerable proportion of the notes to this subject. The text used is, in accordance with the wish of the editor of the Series, that of Fleckeisen (Teubner), and valuable assistance has been derived for the notes from the German edition by Julius Brix (4th ed. 1884).

W. M. LINDSAY.

Oxford, 1887.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial reporting and compliance with regulatory requirements.

2. The second part of the document outlines the various methods and tools used to collect, store, and analyze data. It highlights the role of modern technologies such as cloud computing, data analytics, and artificial intelligence in enhancing the efficiency and accuracy of data management processes.

3. The third part of the document focuses on the challenges and risks associated with data management, including data security, privacy concerns, and the potential for data breaches. It provides strategies and best practices to mitigate these risks and ensure the integrity and confidentiality of the data.

4. The fourth part of the document discusses the importance of data governance and the role of various stakeholders in ensuring that data is used ethically and responsibly. It emphasizes the need for clear policies, procedures, and oversight mechanisms to guide data management practices.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the need for continuous improvement and innovation in data management practices to stay ahead of the curve in a rapidly evolving digital landscape.

CONTENTS OF PART I.
