LETTER OF TRANSMITTAL.

DEPARTMENT OF THE INTERIOR,
BUREAU OF EDUCATION,
Washington, April 24, 1913.

SIR: It is generally conceded that Germany has done more toward adapting industrial education to the needs of the people than has been done in the United States. Conditions in the United States differ widely from conditions in Germany, and the details of adaptation must therefore be different, but the underlying principles are the same. In arriving at an understanding of these principles, and for suggestions in applying them under American conditions, a clear presentation of industrial education in Germany can not fail to be helpful. I therefore recommend that the manuscript prepared by Dr. Holmes Beckwith, and transmitted herewith, be published as a bulletin of this bureau.

Respectfully,

P. P. CLAXTON,
Commissioner.

The SECRETARY OF THE INTERIOR.
