SELECTED LIST OF UNITED STATES PUBLIC  
DOCUMENTS SPECIALLY USEFUL  
IN A SMALL LIBRARY

BULLETIN NUMBER 6  
OF  
The Free Library of Philadelphia

NOTE

**T**HIS list of United States Public Documents has been prepared, in the Free Library of Philadelphia, to solve, as far as may be, the question frequently raised as to which public documents should be collected by libraries containing from 5,000 to 50,000 volumes.

The volumes in this list have been arranged alphabetically, according to their subjects. At the end of each entry will be found a reference showing from which Department and Division the "Document" is issued. For instance, "CON." means that the book or pamphlet is issued by "Congress" and "W. 9." by the "War Department—Signal Corps Division."

Applications for these volumes should be made to the Senator or Member of Congress from the locality in which the library is situated.

The Free Library of Philadelphia invites suggestions as to volumes not included in this list which other libraries think should be added. If this Bulletin shall prove of value, it is proposed to print, at yearly intervals, a few additional pages embodying volumes so suggested, as well as such volumes issued after the publication of this list, as fall within its scope.

If this Bulletin is preserved and interleaved, the appendixes, as they are published, may be cut up, and the titles pasted opposite the proper subject.
