VICO

WORKS BY PROFESSOR FLINT.

I.

THEISM.

FOURTH EDITION. Crown 8vo, 7s. 6d.

"The merits of Professor Flint are great, both as a writer and a thinker. Powerful thinking is found on every page, couched in the clearest style, while a peculiar aptness of expression everywhere characterises it."—*The Inquirer*.

"A work of the rarest excellence and of the highest value as an incisive and powerful weapon of intellectual warfare directed against the materialistic and atheistical tendencies of the day. . . . The most marked excellence of the volume before us, and, to our mind, by far the most momentous, is this—the author is not content with standing on the defensive and sweeping into logical annihilation almost every argument advanced against his position by his adversaries; but he carries the war boldly and most effectually into the enemy's camp, and drives him from every stronghold he occupies."—*Standard*.

II.

ANTI-THEISTIC THEORIES.

SECOND EDITION. Crown 8vo, 10s. 6d.

"These are not simply the lectures of an apologetic theologian, but of one who is by nature and culture a critic and historian of thought. They are marked by wide sympathies and knowledge, lucidity of exposition, vigour of style, and cogency of argumentation. . . . The oldest and the newest 'anti-theistic theories' are here expounded, appraised, and criticised. . . . The book is a searching and honest and honourable criticism of the theories that seek to dispossess and replace Theism."—*The Academy*.

"There is a great amount of learning and critical skill shown in this volume, and it has been well digested and assimilated by the mind of the author. He takes a wide sweep, and gives an epitome of systems which negative religion, both ancient and modern. . . . Its perfect clearness of style is such, that the most abstruse matters may be grasped by any reader who will give but common attention in reading it. But the thought is not clear because of the absence of what is called mysticism, but because the mysticism present is illuminated by the light of a clear reason. It is a book in which the thinker will delight, not less for its nervous energy of style than for its depth and power of thought."—*Inquirer*.

III.

THE PHILOSOPHY OF HISTORY IN EUROPE.

VOL. I., CONTAINING THE HISTORY OF THAT PHILOSOPHY
IN FRANCE AND GERMANY. 8vo, 15s.

"A most important work. . . . If the completion of his task fulfils the promise of his first instalment, he will have produced a work which cannot fail to mark an epoch in English philosophical literature."—*Biedersteiner Review*.

"If what is to follow be of equal quality with the first volume, it will be an important and valuable work. It cannot fail as such to supply fresh stimulus to the study of history, with a view to its philosophical comprehension."—*Athenæum*.
