The A B C Guide to Mythology. By HELEN A. CLARKE. With several illustrations.

The author of this book has written and lectured on mythology for many years, and is, from study and research, well qualified to produce a work to supply the general need. She traces the rise and development of the various native myths through their Greek, Norse and Oriental phases, so that the book is an authoritative guide to the subject, and at the same time thoroughly interesting and entertaining.

The A B C Guide to Music. By D. GREGORY MASON. With twelve illustrations.

In this work Mr. Mason discusses the theory of music in a simple and entertaining manner, and then treats in turn pianoforte, orchestral and vocal music, dealing with the master musicians and their work with sure insight and significant analysis. He has avoided technical expressions as far as possible, and his book may be recommended not only to young readers, but also to adult lovers of music wishing to increase their knowledge of musical art.

The A B C Guide to Pictures. By CHARLES H. CAFFIN. Author of "How to Study Pictures." Fully illustrated.

Mr. Caffen is a well-known author of books on art. In this book, with the object not so much to tell the reader what pictures to admire as to suggest the principles which will enable him to judge for himself what is most worthy of admiration, Mr. Caffen analyses the best qualities of art from well-known examples, and makes his point with the clearness and precision of a true critic.

The A B C Guide to American History. By H. W. ELSON. With sixteen illustrations.

In a style that is at once picturesque and crisp, Mr. Elson tells the story of the growth of the modern America out of the land discovered by Columbus in 1492. The book, which is full of fascinating romance and incident, contains also, in its account of the rise of the United States, a considerable amount of thoughtful writing on the development of nations and the art of government.
