HISTORY MADE EASY :

An Epitome

OF

ENGLISH HISTORY

PREPARED SPECIALLY FOR THE

PUBLIC EXAMINATIONS.

With regard to this History a Candidate writes :

“I should think it is the best book ever published for Examination purposes.”

Another Candidate writes :

“I learn more from the ‘History Made Easy’ in a day than from all the other histories put together in a week.”

PREFACE.

THIS little manual of Geography is intended to be a companion book to the "History Made Easy;" and a similar plan has been adopted in the arrangement of the two books. They are both specially intended for the Public Examinations; and we believe that everything of importance connected with the subjects treated of has been dealt with in a short and concise form, and set forth in plain language. We would draw particular attention to our Tables of Rivers and Mountains, which will supply a great want frequently noticed by us in our preparation of Students. As far as our experience goes, no Geography gives these in the manner adopted by us; nor does any Geography with which we are acquainted tabulate the important places, with their names, position and importance, as we have done. We trust, also, that the special informa-

tion given in the Appendices will prove serviceable; and that the general result will show that many hours of hard work and indefatigable research have not been spent in vain. We have consulted all the best and most recent authorities; and we are particularly indebted to Dr. Hughes' "Class-Book of Modern Geography," and, in a lesser degree, to the Manuals of Drs. Cornwell and Mackay.
