L

PREFACE.

THE following notes were written in compliance with a request of the Council of the Sanitary Assurance Association, that I should visit the International Health Exhibition and report to the Association upon those exhibits which are more or less connected with its work, viz. :—the promoting and maintaining of good sanitary arrangements in the dwellings of all classes of the community.

The notes are confined to House Drains, Water Closets, Urinals, Baths, Lavatories, Sinks, and Water Service Appliances of the Dwelling House ; all of which are specially within the province of the Architect ; the notes are now published, by desire of the Council.
