PREFACE TO FIRST EDITION

THE Education Act of 1918, like its predecessor the Education Act of 1902, is superimposed on existing Acts, and, until a consolidating Act is passed, there will be considerable difficulty in construing and harmonising the very numerous statutes relating to education. Further, in the present Act, provisions relating to particular subjects are contained in widely scattered sections, thus increasing the difficulty of obtaining a complete view of the statutory enactments. An attempt has been made in this book to bring together such provisions under appropriate headings, whilst the full references given, in the text, to relevant sections in other Acts will, it is hoped, further facilitate the labours of those who have to consult or administer the Act.
