EXPLANATORY NOTICE.

THE present catalogue of the Alumni and other graduates of Columbia College is the sixth which has been published since the re-organization of the College under its present title, in 1787. These publications have not been periodical; and in no one of them except the last, which was issued in 1865, has there been any attempt to indicate the professions or occupations of the graduates, or to present a record of the honors, academic, civic, or military, which have been conferred upon them. Such an attempt, made for the first time, in the absence of any written record of such things regularly kept at the College or elsewhere, could not but be, to a certain extent, unsuccessful; and accordingly in the issuing of the catalogue of 1865 no credit was claimed for it on the score of perfection or completeness. The publication was avowedly made, in the form adopted, quite as much in the hope of eliciting, by means of the interest it might excite, additional information in regard to the personal history of the graduates, as of giving a permanent form to the information already obtained. This hope has not been wholly disappointed. A number of the Alumni of the College have kindly contributed important additions to the knowledge which had been previously gathered in regard to members of many of the earlier classes; and in consequence of this valuable assistance, the present edition of the catalogue, though still far from being all that could be desired, will be found to exhibit a sensible improvement on the last.

Copies of this catalogue will be sent, as in 1865, to all the living Alumni whose residences are known. Those who may not receive it may be assured that the omission is owing only to want of information as to their proper addresses. They will be promptly supplied, on application, by post or otherwise, to the President, at the College.

Notwithstanding the considerable success which has attended the efforts made to supply the deficiencies of the former publication, the imperfections which will doubtless be detected in the present one can hardly fail to be numerous. This

prefatory note cannot, therefore, be better concluded than by repeating the request earnestly made in 1865, of every graduate into whose hands the catalogue should fall, that he would communicate to the President any information which may serve to improve it in future editions; completing first his own record, should he find it deficient, and adding any important facts within his knowledge, which the catalogue does not contain, in regard to any other graduate or graduates.
