ACKNOWLEDGMENTS

The present study would have been impossible but for the hearty coöperation of a large number of persons, as state superintendents, high-school inspectors, officers of administration or instruction in the state universities and agricultural colleges, and officers and teachers in the different schools studied. For the mass of detailed information used in Chapters II, III, IV, part of V, and VII, I am particularly indebted to the superintendents, principals, and teachers in the schools listed. (See footnote, 1.) The compilation of the list itself was rather difficult in the early stages, since agricultural instruction was so new in 1907 and because few states had at that time undertaken to collect information regarding the work.

Especially am I indebted to Mr. D. J. Crosby, Specialist in Agricultural Education of the United States Department of Agriculture, for the free use of the materials and facilities at the command of the office of Experiment Stations.

Much appreciated assistance in reading the manuscript and in checking up the tabulations has been rendered both by Mr. Crosby and by Mr. F. W. Howe, then Assistant in Agricultural Education in the Office of Experiment Stations, and now Supervisor of Agricultural Education for the New York State Education Department.

The present investigation has been carried on under the auspices of the department of secondary education, Teachers College, Columbia University. I owe a great debt to Professor Julius Sachs, head of the department, and to Dr. David S. Snedden, now commissioner of education for Massachusetts, for their helpful direction and kind suggestions at all stages of the work.

C. H. R.

CONTENTS

	Page
INTRODUCTION	I
CHAPTER I	
AGRICULTURAL EDUCATION	
A brief historical sketch.....	4
Present agencies of agricultural education.....	8
CHAPTER II	
THE PUBLIC HIGH SCHOOL	
Importance of agricultural instruction in the high school.....	13
Types of secondary schools teaching agriculture.....	14
Legislation	20
Statistics of schools teaching agriculture as a separate study.....	22
Statistics of schools teaching agriculture incidentally.....	38
CHAPTER III	
SOME TYPICAL HIGH SCHOOLS TEACHING AGRICULTURE	
High schools teaching agriculture one year or less.....	42
Grove City High School, Ohio.....	43
New Holland High School, Ohio.....	45
West Milton High School, Ohio.....	47
South Lyon High School, Mich.....	48
Wayne Township High School, Ohio.....	50
Beaver Creek Township High School, Ohio.....	52
Riley Township High School, Ohio.....	53
St. Louis High School, Mich.....	55
Sac City High School, Iowa.....	56
High schools teaching agriculture in three or four years.....	60
Petersham High School, Mass.....	60
John Swaney School, McNabb, Ill.....	64
Guthrie County High School, Iowa.....	71
Waterford Township High School, Pa.....	75
High schools teaching agriculture only incidentally.....	83
Odell High School, Ill.....	83
CHAPTER IV	
ADMINISTRATION, EQUIPMENT AND METHODS	
Time given to instruction	85
Relation of agriculture to the curriculum and to the other sciences in the curriculum	88
The teaching force	92
Experimentation and field work.....	95
Text and reference books.....	99

CHAPTER V	
PREPARATION AND SALARIES OF TEACHERS OF AGRICULTURE IN THE HIGH SCHOOLS	
	Page
Preparation and practical experience of the teachers.....	102
Salaries paid the teachers of agriculture, trained and untrained....	104
The agricultural college as a source of supply, with statistics on salaries commanded by recent graduates.....	108
Provision for the higher training of teachers of agriculture.....	111
Courses for teachers given during the regular college year...	111
Summer school courses	112
The summer conference	114
The professorship of agricultural education.....	115
CHAPTER VI	
SPECIAL SECONDARY SCHOOLS OF AGRICULTURE	
Types of special schools and state aid.....	117
Support and control	119
Organization, curriculum, and equipment.....	127
The Alabama Congressional District Schools.....	128
The Georgia Congressional District Schools.....	131
The Oklahoma District Schools.....	136
The Wisconsin and Michigan County Agricultural Schools....	139
Faculties of the special agricultural schools.....	141
CHAPTER VII	
PROBLEMS OF AGRICULTURAL INSTRUCTION IN THE SECONDARY SCHOOL	
Agriculture and the existing school system.....	143
The effect of establishing special schools.....	145
The attitude of colleges and universities.....	151
Difficulties of the curriculum.....	158
Relation of agriculture as a branch of the high-school curriculum to the sciences already present.....	158
Relation of the agriculture taught in the high school to that taught in the elementary schools.....	167
Difficulties of instruction	169
The time problem	170
The equipment problem	171
The teacher problem	172
The text-book problem	172
The methods problem	173
The attitude of students and patrons.....	176
Help that may be given the schools.....	181
Conclusions and summary	182
APPENDIX A	
Legislation pertaining to agricultural instruction in public high schools	185
APPENDIX B	
List of references on agricultural education.....	191
Topical list of references.....	200
INDEX	201

TABLES

TABLE		Page
1.	High schools and academies offering instruction in agriculture for two or more years.....	24
2.	Secondary schools classified as agricultural high schools, for the year 1908-9.....	25
3.	Special schools classified according to the geographical unit served.....	25
4.	Public high schools with courses in agriculture.....	27
5.	Agriculture taught as a separate study.....	28
6.	Agriculture taught incidentally.....	29
7.	Schools reporting more or less fully.....	29
8.	Data from 151 comparable schools furnishing complete information.....	31
9.	Comparative data for 151 schools.....	34
10.	Ratios of enrollment per 10,000 of population.....	35
11.	Ratio of enrollment in agriculture to total enrollment.....	36
12.	Ratio of students from farm homes to total enrollment.....	37
13.	Enrollment of high schools reporting.....	38
14.	Ratio of students from farm homes to total enrollment (in schools teaching agriculture incidentally).....	38
15.	Science work reported. (Same schools as in Table 14.).....	39
16.	Number of sciences reported. (Same schools as in Table 14).....	39
17.	Time given to each science. (Same schools as in Table 14).....	40
18.	Distribution of schools according to the number of weeks given to agriculture.....	86
19.	Distribution of schools according to the number of minutes per week given to agriculture.....	87
20.	Distribution of schools according to the total number of minutes per annum given to agriculture.....	88
21.	Distribution of schools according to the year in which agriculture is given.....	89
22.	Distribution of schools according to the sciences preceding agriculture.....	91
23.	Distribution of schools according to the amount of science preceding agriculture.....	92
24.	Distribution of schools with first-year agriculture preceded by another science.....	92
25.	Official position of the instructor in agriculture.....	93
26.	Distribution of teachers according to the number of classes taught in addition to agriculture.....	93
27.	Distribution of teachers according to the number of hours on duty in school.....	94
28.	Total number of classes assigned to teacher of agriculture and time spent daily in agriculture.....	94
29.	Purposes to which available funds are devoted.....	96
30.	Distribution of schools according to amounts of loans, gifts, and expenditures for all agricultural purposes.....	97

	Page
TABLE 31. Amount of experimentation work.....	98
32. Who performed the experiments.....	98
33. Schools reporting garden work.....	98
34. Text-books reported as used.....	100
35. Books reported as references five times or more.....	101
36. Preparation of 182 high-school teachers of agriculture.....	102
37. Preparation of 120 teachers in Missouri, Nebraska, and Ohio	103
38. Salaries of 110 teachers of agriculture in Missouri, Nebraska, and Ohio	104
39. Official position and sex of the teachers of agriculture in Missouri, Nebraska, and Ohio.....	106
40. Salaries of teachers paid more because of ability to teach agriculture in the high school.....	107
41. Salaries of agriculturists in public high schools and other public secondary schools.....	108
42. Distribution of salaries of graduates from agricultural colleges in 1907, 1908, and 1909.....	109
43. Time given to agriculture in proportion to other school work (in Alabama special agricultural schools).....	128
44. Equipment and faculties of the Congressional District Schools of Alabama	130
45. Time given to agriculture in proportion to other school work (in Georgia special agricultural schools).....	132
46. Data on the property and incomes of the Georgia Congressional District Schools	135
47. Data on the property and incomes of the Oklahoma District Schools	136
48. Time given to agriculture in proportion to other school work (in the Dunn County, Wis., school).....	140
49. Faculties of the special agricultural schools for counties and larger districts.....	142
50. Data on students in agricultural schools.....	151
51. Difficulties experienced in teaching agriculture.....	160
52. The attitude of pupils and patrons toward agriculture.....	176
53. Principal industries of the communities supporting agricultural courses	179
54. Topics in agriculture most difficult to teach.....	180
