" — Ten thousand different tribes !
People the blaze. To sunny waters some
By fatal instinct fly ; —————
— Through the green wood glade
Some love to stray ; there lodged, amus'd and fed,
In the fresh leaf. Luxurious, others make
The meads their choice, and visit every flower,
And every latent herb." ———

THOMSON.

" — Thy desire, which tends to know
The works of God, thereby to glorify
The great Workmaster, leads to no excess
That reaches blame, but rather merits praise
The more it seems excess." ———

MILTON.
