PREFACE

THE papers entitled "The Expert Waitress" are intended rather as a working model than as a set of rules from which there is no appeal. It is recognized that tastes and opinions vary as much as do the various dining-rooms in which they are expressed. In writing these papers, one idea has been kept in mind: No rule has been laid down that has not a good reason for its existence.

Some things, desirable in themselves, have been omitted because they are not possible to one pair of hands and feet, even when guided by a well-regulated brain.
