AUTHOR-SUBJECT INDEX

The number in heavy type refers to the volume, the following number to the page. S. stands for supplement.

- Adams, G. O.** See Gage, S. DeM.
- Addis, T.** The bactericidal and hemolytic powers of "paraffin" plasma and of serum, **10**, 200.
- Albert, H.** Diphtheria: A statistical study of certain laboratory and clinical observations, **4**, 210.
- Anderson, J. F.** The frequency of tubercle bacilli in the market milk of the city of Washington, D. C., **5**, 107.
The influence of age and temperature on the potency of antidiphtheritic serum and antitoxic globulin solution, **7**, 481.
The relative proportion of bacteria in top milk and bottom milk, and its bearing on infant feeding, **6**, 392.
and Goldberger, J. Natural and induced immunity to typhus fever, **11**, 402.
and McClintic, T. B. A method for the bacteriological standardization of disinfectants, **8**, 1.
See Roscnau, M. J.
- Anthony, B. van H.** Some characters of the streptococcus found in scarlet fever, **6**, 332.
- Arkin, A.** The influence of certain oxidizing agents (sodium iodosobenzoate and sodium indoxybenzoate) on phagocytosis, **11**, 427.
The influence of strychnin, caffeine, chloral, antipyrin, cholesterol, and lactic acid on phagocytosis, **13**, 408.
See Rosenow, E. C.
- Armstrong, V.** See Frost, W. D.
See Fuller, C. A.
- Ashburn, P. M., and Craig, C. F.** Experimental investigations regarding the etiology of dengue fever, **4**, 440.
- Avery, O. T.** See North, C. E.
See White, B.
- Ayers, S. H., and Johnson, W. T., Jr.** Pasteurization in bottles and the process of bottling hot pasteurized milk, **14**, 217.
- Baer, J. L.** Epidemic gonorrhoeal vulvovaginitis in young girls, **1**, 313.
- Baeslack, F. W.** On the cultivation of the treponema pallidum (*Spirochaeta pallida*), **12**, 55.
See King, W. E.
- Baker, S. K.** See Prescott, S. C.
- Baldauf, L. K.** See Simonds, J. P.
- Baldwin, F. A.** The pathological anatomy of experimental nagana, **1**, 544.
- Banshaf, E. J., and Famulener, L. W.** The influence of chloral hydrate on serum anaphylaxis, **7**, 577.
See Berry, J. L.
See Park, W. H.
See Steinhardt, E.

- Barber, M. A.** A technic for the inoculation of bacteria and other substances into living cells, **8**, 348.
The effect on mice of minute doses of *Bacillus anthracis*, **6**, 634.
The effect on the protoplasm of nitella of various chemical substances and microorganisms introduced into the cavity of the living cell, **9**, 117.
The rate of multiplication of *Bacillus coli* at different temperatures, **5**, 379.
- Barron, M.** See Larson, W. P.
- Bass, F. H.** See Bracken, H. M.
- Bassee, P.** Disseminated blastomycosis: Report of a case involving the lungs, lumbar vertebrae, and subcutaneous tissues; with multiple abscesses and fistulae, and extensive amyloid degeneration, **3**, 91.
Some observations on acute ascending paralysis, **2**, 589.
- Batman, F. H.** See Clark, C. P.
- Baton, W. U.** See Longley, F. F.
- Batty, A. J.** See LeCount, E. R.
- Beach, B. A.** See Hastings, E. G.
- Beaslack, F. W.** See King, W. E.
- Becht, F. C.,** and Greer, J. R. A study of the concentration of the antibodies in the body fluids of normal and immune animals, **7**, 127.
- Behrens, C. A.** An attenuated culture of *Trypanosoma brucei*, **15**, 24.
- Bel, G. S.,** and Couret, M. *Balantidium coli* infection in man, **7**, 609.
- Belcher, D. M.** See Winslow, C.-E. A.
- Bell, E. T.** See Larson, W. P.
- Bernstein, E. P.,** and Epstein, A. A. A simple method of sterilizing blood for cultural purposes, **3**, 772.
- Berry, J. L.** A study of the pneumococcus, with especial reference to the inulin test, **4**, 93.
Tubercle bacilli in the blood, **14**, 162.
and Banzhaf, E. J. Non-variability of diphtheria bacilli, **10**, 409.
and Blackburn, L. P. Comparative toxin production in diphtheria strains, **10**, 404.
and Smeaton, M. A. Comparative tests of sputum by the Kinyoun and Elliman-Erlandsen methods, **14**, 159.
- Blackburn, L. P.** See Berry, J. L.
- Boughton, T. H.** Injections of homologous streptococci killed by galactose in the treatment of suppurative complications of contagious diseases, **7**, 99.
Interaction of serum, leukocytes, and bacteria in phagocytosis, **7**, 111.
See Weaver, G. H.
- Boxmeyer, C. H.** Epizootic lymphadenitis, a new disease of guinea-pigs, **4**, 657.
See McClintock, C. T.
- Bracken, H. M.,** Bass, F. H., Wesbrook, F. F., Whittaker, H. A., and Hill, H. W. The Mankato typhoid fever epidemic of 1908, **9**, 410.
- Breed, R. S.** The sanitary significance of body cells in milk, **14**, 93.
and Stidger, I. R. The number of cellular elements in milk, **8**, 361.
See Prescott, S. C.
- Broadhurst, J.** A biometrical study of milk streptococci, **10**, 272.
The effect of meat and of meat extract media upon the fermentative activity of streptococci, **13**, 404.
- Brown, C. P.** See Kolmer, J. A.
- Browne, W. W.** The production of acid by the *Bacillus coli* group, **15**, 580.
- Buchanan, R. E.,** and Truax, R. Non-inheritance of impressed variations in *Streptococcus lacticus*, **7**, 680.

- Buchner, G. D.** See Kastle, J. H.
- Burger, L.** Observations on the staining of encapsulated bacteria with particular reference to pneumococci and streptococci, **4**, 426.
- and Ryttenberg, C. Observations upon certain properties acquired by the pneumococcus in the human body, **4**, 609.
- Bullock, F. D.** See Calkins, G. N.
- Burmeister, W. H.** The meiotagmin and epiphanin reactions in the diagnosis of carcinoma, **12**, 459.
- The protein poison of the tonsil, **15**, 549.
- See Dick, G. F.
- Butterfield, E. E.** A case of pulmonary infection with an acid-fast actinomyces, **2**, 421.
- Calkins, G. N.** A spirochete in mouse cancer, *Spirochaeta mycrogyrata* (Löwenthal) var. *Gaylordi*, **4**, 171.
- and Clowes, G. H. Some artefacts in mouse carcinoma, **2**, 555.
- Bullock, F. D.**, and Rohdenburg, G. L. The effects of chemicals on the division rate of cells with special reference to possible precancerous conditions, **10**, 421.
- Capps, J. A.** See Davis, D. J.
- and Davis, D. J. The relationship of septic sore throat to infected milk, **15**, 130.
- Carlisle, R. J.** Two cases of relapsing fever with notes on the occurrence of this disease throughout the world at the present day, **3**, 233.
- Carlson, A. J.** See Hektoen, L.
- See Pettit, R. T.
- Caulfield, A. H.** On the activation of opsonin in heated serum, **5**, 245.
- Chambers, R.** See Novy, F. G.
- Chapin, C. V.** Variation in type of infectious disease as shown by the history of small-pox in the United States, 1895-1912, **13**, 171.
- Chapin, C. W.** See McCoy, G. W.
- Chowning, W. M.** See Wilson, L. B.
- Clark, C. P.**, and Batman, F. H. Pneumococcal bronchiolitis (capillary bronchitis), **1**, 229.
- and Simonds, J. P. A study of typhoid opsonins, **5**, 1.
- Clark, H. W.** The resistance to decomposition of certain organic matters in sewage, **S. 2**, 136.
- and Gage, S. DeM. On the bactericidal action of copper, **S. 2**, 175.
- and Gage, S. DeM. The use of copper sulphate in water filtration, **S. 2**, 172.
- Clark, L. T.** Some observations on the Wassermann reaction, **7**, 476.
- See McClintock, C. T.
- Clark, P. F.** The relation of the pseudodiphtheria and the diphtheria bacillus, **7**, 335.
- Clark, W. M.** See Rogers, L. A.
- Clarke, F. B.**, Hamill, R. C., Pollock, I. J., Curtis, A. H., and Dick, G. F. Studies on pellagra based on its occurrence in 1910 in the Cook County institutions at Dunning, Illinois, **10**, 186.
- Clegg, M. T.**, and Wherry, W. B. The etiology of pemphigus contagiosus in the tropics, **3**, 165.
- See Musgrave, W. E.
- Clowes, G. H.** See Calkins, G. N.
- Cocoo, A. F.** See Dungen, E. von.
- Cole, R. I.** Experimental streptococcus arthritis in relation to the etiology of acute articular rheumatism, **1**, 714.

- Collins, K. R.** A study of the dejecta of normal children and of those suffering from acute and subacute diarrhea, with reference to *Bacillus dysenteriae*, **2**, 620.
The value of the agglutination reaction and of bacteriological methods in the diagnosis of glanders, **5**, 401.
- Cooke, J. M.** See Hamilton, A.
- Copeland, W. R.**, and Hoover, C. P. The interpretation of tests for *Bacillus coli communis*, **9**, 343.
See Johnson, G. A.
- Corbett, L. S.** See Good, E. S.
- Corper, H. J.** Intra-vitam staining of tuberculous guinea-pigs with fat-soluble dyes. Studies on the biochemistry and chemotherapy of tuberculosis, **II**, **11**, 373.
Intra-vitam staining of tuberculous guinea-pigs with fat-soluble dyes (supplementary note). Studies on the biochemistry and chemotherapy of tuberculosis, **VI**, **12**, 274.
The therapeutic value of copper and its distribution in the tuberculous organism. Studies on the biochemistry and chemotherapy of tuberculosis, **XI**, **15**, 518.
See Welis, H. G.
- Couret, M.** See Bel, G. S.
- Cowie, D. M.** See Warthin, A. S.
- Crabtree, E. G.** Observations on the growth of the gonococcus and the staphylococcus albus from the urethra in plate culture (a criticism of Warden's work), **15**, 309.
- Craig, C. F.** A study of latent and recurrent malarial infection and the significance of intracorporeal conjugation in the malarial plasmodia, **4**, 108.
Further observations on the complement fixation test in the diagnosis of lues in the military service: An analysis of 3,950 tests, **9**, 213.
Studies in the morphology of malarial plasmodia after the administration of quinin and in intracorporeal conjugation, **7**, 285.
Studies upon the amebae in the intestine of man, **5**, 324.
The identity of *Entameba histolytica* and *Entameba tetragena*, with observations upon the morphology and life cycle of *Entameba histolytica*, **13**, 30.
See Ashburn, P. M.
- Craster, C. V.** The properties and agglutinations of some non-pathogenic vibrios, **12**, 472.
- Cumming, J. G.** Rabies-hydrophobia. A study of fixed virus, determination of the M.L.D., vaccine treatment (Högyes, Pasteur, and dialyzed vaccine), and immunity tests, **14**, 33.
The quinin treatment of rabies, **15**, 205.
- Curtis, A. H.** A motile curved anaerobic bacillus in uterine discharges, **12**, 165.
See Clarke, F. B.
- Darling, S. T.** Equine piroplasmiasis in Panama, **13**, 197.
Murrina, a trypanosomal disease of equines in Panama, **8**, 467.
- Davis, B. F.** The immunological reactions of oidiomycosis (blastomycosis) in the guinea-pig, **8**, 190.
and Petersen, W. F. Complement deviation in Rocky Mountain spotted fever, **8**, 330.
- Davis, B. J.** See Rogers, L. A.

- Davis, D. J.** A bacillus from spontaneous abscesses in rabbits and its relation to the influenza bacillus, **12**, 42.
 A hemophilic bacillus found in urinary infections, **7**, 599.
 Bacteriology and pathology of the tonsils with especial reference to chronic articular, renal, and cardiac lesions, **10**, 148.
 Hemophilic bacilli—their morphology and relation to respiratory pigments, **4**, 73.
 Immune bodies in urinary infections with colon bacilli and treatment by inoculation, **8**, 224.
 Interagglutination experiments with various strains of sporothrix, **12**, 140.
 Interrelations in the streptococcus group with special reference to anaphylactic reaction, **12**, 386.
 On plasma cells in the tonsils, **10**, 142.
 Studies in meningococcus infections, **2**, 602.
 Studies in meningococcus infections, **4**, 558.
 The actinomyces-like granules in tonsils, **14**, 144.
 The bacteriology of whooping-cough, **3**, 1.
 The changes in influenzal pneumonia, **10**, 259.
 The formation of chlamydo spores in *Sporothrix schenckii*, **15**, 483.
 The growth and viability of streptococci of bovine and human origin in milk products, **15**, 378.
 The morphology of *Sporothrix schenckii* in tissues and in artificial media, **12**, 453.
 and Capps, J. A. Experimental bovine mastitis produced with hemolytic streptococci of human origin, **13**, 135.
 See Capps, J. A.
 See Ruediger, G. F.
 See Tunncliffe, R.
- Day, A. A.** See Kendall, A. I.
- Day, D. W.** The relation between serum resistance and virulence, **2**, 569.
- Dewey, K.** Tuberculosis of the stomach with extensive tuberculous lymphangitis, **12**, 236.
 and Nuzum, F. The effect of cholesterol on phagocytosis, **15**, 472.
- DeWitt, L. M.** A case of generalized infection with a diphtheroid organism, **10**, 36.
 Preliminary report of experiments in the vital staining of tubercles. Studies on the biochemistry and chemotherapy of tuberculosis, IV, **12**, 68.
 Report of some experimental work on the use of methylene blue and allied dyes in the treatment of tuberculosis. Studies on the biochemistry and chemotherapy of tuberculosis, VII, **13**, 378.
 Report of some experiments on the action of *Staphylococcus aureus* on the Klebs-Loeffler bacillus, **10**, 24.
 Therapeutic use of certain azo-dyes in experimentally produced tuberculosis in guinea-pigs. Studies on the biochemistry and chemotherapy of tuberculosis, VIII, **14**, 498.
 and Sherman, H. Tuberculocidal action of certain chemical disinfectants. Studies on the biochemistry and chemotherapy of tuberculosis, IX, **15**, 245.
- Dick, G. F.** Ferments for carcinomatous protein in the blood in carcinoma, **14**, 242.
 Fusiform bacilli associated with various pathological processes, **12**, 191.
 Multiple arthritis due to a Friedländer bacillus, **14**, 176.
 On institutional dysentery, **8**, 386.
 On the development of proteolytic ferments in the blood during pneumonia, **10**, 383.
 On the nature of proteolytic substances in the blood, **9**, 282.
 On the origin and action of hemolytic complement, **12**, 111.
 and Burmeister, W. H. The toxicity of human tonsils, **13**, 273.
 and Henry, G. R. Anaerobic cultures in scarlet fever, **15**, 85.
 See Clark, F. B.
