PHILADELPHIA, *January 1, 1880.*

To his Excellency Gov. HENRY M. HOYT, *Chairman of the
Honorable Board of Commissioners of the Second Geo-
logical Survey of Pennsylvania:*

SIR: I have the honor to present a report of progress of the survey in the counties of Lycoming and Sullivan, begun by Mr. Andrew Sherwood in 1877, and continued by Mr. Franklin Platt with special reference to the coal measures in 1878-9.

Geological colored maps of the two counties accompany the text, which is illustrated by a sufficient number of vertical sections to make plain the geology. The country is still in large part a wilderness, and many curious items of geology remain no doubt to be discovered; but the important facts are fully and clearly stated. It would be very desirable to have the triangulation of the State extended to this region, and an accurate topographical survey of it made.

I remain, sir,

Your obedient servant,

J. P. LESLEY.

MANSFIELD, *March 1, 1878.*

Prof. J. P. LESLEY, *State Geologist:*

SIR: I have the honor to submit the following notes of observations made in the county of Lycoming while tracing the outcrop in the summer of 1877.

But I wish more particularly to call your attention to the accompanying maps, the construction of which was the great object we had in view.

I have the honor to remain,

Your obedient servant,

ANDREW SHERWOOD.

vi GG. REPORT OF PROGRESS. FRANKLIN PLATT.

315 WALNUT STREET,
PHILADELPHIA, July 31, 1879.

Prof. J. P. LESLEY, *State Geologist*:

DEAR SIR: In accordance with your instructions, I have examined the coal basins of Lycoming county and submit the following report thereupon.

The survey has been materially assisted in the gathering of facts relating to these basins by Mr. E. H. Burlingame, of Williamsport, Mr. Geo. H. Platt, chief engineer of the McIntyre Coal Company, by Mr. Chas. S. Green, of the Red Run Coal Company, and others.

I remain,

Your obedient servant,

FRANKLIN PLATT,
Assistant Geologist.
