## DEDICATION.

---

To those Medical Gentlemen who have called me in to aid their practice, either by the administration of the Portable Sudatory, or by the application of Galvanism and Electricity, and who have witnessed their extraordinary powers, this humble production is respectfully dedicated, as a memento of the Author's sincere gratitude, for the privilege of thus co-operating with them in saving life and restoring health.

11, *Argyle Street,*

*November, 1845.*

7. The following table shows the number of people who attended the concert in each age group.

Age Group	Number of People
0-10	120
11-20	180
21-30	250
31-40	300
41-50	280
51-60	220
61-70	150
71-80	80
81-90	30

8. The following table shows the number of people who attended the concert in each age group, categorized by gender.

Age Group	Male	Female
0-10	60	60
11-20	90	90
21-30	120	130
31-40	150	150
41-50	140	140
51-60	110	110
61-70	70	80
71-80	40	40
81-90	15	15

9. The following table shows the number of people who attended the concert in each age group, categorized by gender and whether they had a child.

Age Group	Male	Female	Male with Child	Female with Child
0-10	60	60	30	30
11-20	90	90	45	45
21-30	120	130	60	70
31-40	150	150	75	75
41-50	140	140	70	70
51-60	110	110	55	55
61-70	70	80	35	45
71-80	40	40	20	20
81-90	15	15	7	8

10. The following table shows the number of people who attended the concert in each age group, categorized by gender and whether they had a child, and whether they had a dog.

ON THE  
**PORTABLE SUDATORY,**  
OR  
**HOT-AIR-BATH.**

### *Explanation of the Frontispiece.*

---

Figure 1, represents the administration of a General Vapour-Bath to a patient who is covered with a steam-proof cloak from the neck to the feet, without subjecting the head to the vapour.

Figure 2, represents a child using the General Vapour-Bath under a canopy, whose head is subjected to the vapour which the child is inhaling.

Figure 3, the same remedy applied to a sick person in bed, either subjecting the head to the vapour or not.

Figure 4, represents the administration of the Warm Air-Bath (medicated or not), either subjecting the head to the fumes or not, as may be desired, by closing or opening the covering of the frame behind the head of the patient.

Figure 5, is the figure of a child lying on a couch, undergoing the same process.

Figure 6, the Portable Sudatory, or Warm Air-Bath applied to a patient in an urgent case, either undressed or in bed, or in his clothes on a bed or sofa.

Figure 7, represents the application of the Air-Pump Vapour-Bath to the leg and foot of a patient.

Figure 8, the local vapour or warm air, administered to the knee of a patient; and which may also be applied to the foot, elbow, or hand, by a slight alteration of the same apparatus.

Figure 9, the same remedy to the arm.

N.B.—All these Baths may be medicated as may be advisable.

MR. LA BEAUME'S VAPOUR AND HOT-AIR-BATHS.
