INTRODUCTORY NOTE.

The House of Representatives, on February 26, 1900, ordered that this Second Report of the United States Board on Geographic Names be printed. Accordingly, it was printed and issued in May, 1900, as House of Representatives Document No. 472, Fifty-sixth Congress, first session. The edition was "the usual number," viz, 1,850 copies. At the same time the Government Printing Office stereotyped the plates and printed and bound a few copies for its own use. On April 30, 1900, the Senate passed a concurrent resolution directing the printing and binding of 8,000 additional copies of this report. About ten months later, viz, on February 25, 1901, the House of Representatives concurred, and thus the printing of 8,000 copies was ordered.

This book is printed under that authority, and differs very slightly from the original Congressional edition of May, 1900. Advantage has been taken of the opportunity to incorporate in this second edition of March, 1901, corrections of such errors as have been discovered in the original edition of May, 1900. These corrections are for the most part trifling, and affect the spelling of but three names, viz: Chautauqua, Merrimack, and Nez Perce.
