### NOTICE.

This Marvelous Revelation has not been gathered from any source on this earth realm. This knowledge and wisdom has been handed down to me from a Divine Source embracing the actual experiences of my life since a child of twelve. The Divine Intelligences who have imparted this knowledge and wisdom to me are now dwellers of the Seventh Heavenly Zone and the Celestial Divine Kingdoms, and from one of the Masters who is serving in the capacity as a guardian angel. A guardian angel is one who has overcome worlds. Every soul, no matter in what scale of life he may be, is accompanied through this expression of life and through the Ethereal World by a guardian angel. This divine being never makes himself known until YOU are ready for his wisdom or on some special occasion when we are in desperate need or distress and cry out for guidance and help. It is this Divine Being whose presence you will feel or whose voice you will hear. I know many

who have had these experiences. There are those on the earth realm to-day who are so caloused—so dense or materially minded that they could not perceive these facts—and there are thousands who have had sufficient revelations to realize that they are never alone and that some unknown divine force is ever guiding or leading the way when we lift our minds above the material vibrations and desire divine guidance. No one can read these pages and not feel and realize the great purpose of this life—and that activity is a natural law displayed throughout the universe. If we fail to see the purpose of this expression of life, we must fulfill the requirements in the lower zones of the ethereal world.

Fifteen years ago this book was written for publication—but felt the world was not ready for its contents. Realizing its contents made too large a book for convenience, I decided to separate it into three or four volumes. This issue constitutes the first volume—or one-half of our journey through the Ethereal Zones in which we must function. Volume two will reveal the higher zones and their condition. Volume three the laws of progression. Volume four the secret of healing.

To leave the physical body and journey out into space is a natural event. Every individual while asleep leaves his physical body. You, the Ego or spirit, during sleep or rest of the physical body are attracted out into vibrations of your own creation and you wander to these conditions and

places. Many times the experiences which you encounter at that time are so strongly impressed upon your consciousness that when you return to your physical body to again arouse it into activity, it is clearly revealed to your mind and impressed upon your brain and you say: "I was dreaming."

The majority of individuals do not journey far away from their physical body—because they are so intensely interested in material things and material conditions—in their immediate relatives and friends or business and social associates—or in their environments of the home and their business that they are attracted to these vibrations which enmeshes the soul and prevents it from traveling out any great distance. Many have never traveled out beyond the earth's atmosphere. All could travel out into spheres beyond this earth realm if their thoughts and vibrations extended out to those realms, and if they were sufficiently unfolded to understand the law. Many individuals never think of anything beyond the common every-day events. Then how could they travel out beyond such vibrations?

Many times before starting out on these soul journeys I would stand before my bed looking down upon my physical body lying on the bed, realizing that the physical body is only a counterpart of the soul body. Touching the soul body with my hands it felt as natural and tangible to my soul senses as does the physical body to my physical senses. Testing my memory and con-
