" 210, " 10, " " epiphyses" read epiphysis."  
" 211, " 11, " " cases," read "causes."

DARWINISM,

AND

OTHER MODERN SCIENTIFIC SPECULATIONS

Reviewed.

“ Hold thou the good! define it well ;  
For fear divine Philosophy  
Should push beyond her mark, and be  
Procress to the Lords of Hell.”

*Tennyson.*

---

“ In science we find people who can neither see nor hear through sheer learning and hypothesis. It is just because we carry about with us a great apparatus of philosophy and hypothesis that we spoil all.—  
*Goethe.*

---

“ The man of science ought to go on honestly, patiently, diffidently, observing and storing up his observations, and carrying his reasonings unflinchingly to their legitimate conclusions, convinced that it would be treason to the majesty at once of science and of religion if he sought to help either by swerving ever so little from the straight rule of truth.”—  
*Archbishop Tait.*
