JOHN A. CHURCH

**NOTES OF A
METALLURGICAL
JOURNEY IN EUROPE**

NOTES
OF A
METALLURGICAL JOURNEY
IN EUROPE.

BY
JOHN A. CHURCH,
ENGINEER OF MINES.

WITH TWENTY-TWO ILLUSTRATIONS.

NEW YORK:
D. VAN NOSTRAND, PUBLISHER,
28 MURRAY AND 27 WARREN STREET,
1873.

TO

THOMAS EGLESTON, JR.,

PROFESSOR OF MINERALOGY AND METALLURGY IN THE SCHOOL OF
MINES, COLUMBIA COLLEGE, NEW YORK,

THIS VOLUME IS RESPECTFULLY INSCRIBED.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and financial management. The text notes that without reliable data, it is difficult to assess performance, identify trends, and make informed decisions.

2. The second section focuses on the challenges associated with data collection and analysis. It highlights that while digital tools have improved the speed and accuracy of data gathering, they also introduce new risks, such as data breaches and system downtime. Additionally, the text points out that many organizations struggle with data silos, where information is scattered across different departments and systems, making it difficult to integrate and analyze effectively.

3. The third part of the document addresses the need for standardized data formats and protocols. It argues that consistency in data collection and reporting is crucial for ensuring that information is comparable and usable across different levels of the organization and across different sectors. The text suggests that developing common standards and guidelines can help reduce errors and improve the overall quality of the data.

4. The final section discusses the importance of data security and privacy. It notes that as the volume of data collected increases, the risk of unauthorized access and misuse also grows. Therefore, it is essential to implement robust security measures, such as encryption, access controls, and regular security audits, to protect sensitive information. The text also mentions the need for clear policies and procedures regarding data privacy, especially in light of increasing regulatory requirements.

INDEX.

Agordo copper process	3	Artificial galena from roasting	90
Size of mineral mass	3	Augustina muffle furnace	74
Ore	3	Bismuth, extraction of at Freiberg ..	77
Old process	4	Bismuth in desilverization by zinc ..	93
Wet treatment	4	Blowing copper at Aitenau	96
Cementation	5	Blue vitriol, Agordo	5
Crystallization	5	Blue vitriol, Hartz	98
Table of operations	6	Boeckstein gold ore	40
Treatment by Fusion	7	Clausthal, works at	82
Table of treatment by Fusion	9	Colorado ores	52
Loss	11	Condensation of Hg. vapors .. 21 & 25	
Expense	11	Copper, loss at Agordo	11
Improvements	11, 18	Copper ore at Agordo	3
Theory of roasting	14	Copper process, Freiberg	72
Process, cost in U. S.	19	Cost of copper treatment, Agordo ..	11
Aitens, works at	34	Crystallization at Agordo	5
Amalgamation in Austria	43	Crystallization at Freiberg	75
ANALYSES.		Cupellation, Freiberg	70
Argoniferous residues, Hartz	93	Desilverization at Commern	36
Basic sulphates, Agordo	16	Desilverization in Hartz	90
Black copper, Hartz	96	Desilverization at Mechernich	33
Blue vitriol, Hartz	98	Desincing at Call	37
Crude copparas, Agordo	5	Desincing at Mechernich	33
Gneiss at Freiberg	79	FABRICATION.	
Lead at Mechernich	34	Distribution of ores	54
Lead from desilverization by zinc,		Yield of works	55
Mechernich	34	Products	56
Do., Commern	36	Processes	56
Do., Call	38	Classification of ores	56
Lead, 1st fusion, Hartz	85	Preparatory series of operations ..	57
Lead pure, Hartz	93	Gerstenhofer furnace	57
Lead precipitation, Hartz	85	Roasting	57
Matte at Lend	40	Pyrites	58
Matte, copper, Freiberg	72	Arsenical ores	77 & 58
Matte, conc., Freiberg	74	Zinc ores	59
Matte, copper, Hartz	94	Pyritiferous ores	59
Ore, Hartz	83	Regular series of operations	61
Slag, 1st fusion, Lend	45	Roasting lead ore	62
Slag, 3d fusion, Lend	47	Piltz furnace	62 & 66
Sl'g, ore fusion, Freiberg	66	Piltz furnace charge	65
Slag, matte fusion, Freiberg. 81 &	67	Charge at Hulsbrücke	66
Antimony, removal at Call	37	Treatment of the matte	67
Antimony, removal by poling	38	3d and 4th fusions	68
Arsenical ores, treatment of, Frei-		Lead treatment	68
berg	77 & 58	Refining	70

Cupellation	70	Second fusion	46
Second cupellation	72	Fusion with lead	47
Copper process	72	Cupellation	47
Roasting matte	74	Tables of cost and yield	48
Crystallization	75	Cost for various ores	50
Supplementary Series	76	Proportionate yield Au. and Ag. ..	50
Desilverization of abstrich	76	Process in America	51-53
Fusion for hard lead	76	Colorado ores	52
Treatment of abstrich scoria	76	Liquation of rich silver alloy	33
Manufacture of arsenic	77	Lixivation, Agordo	5
Extraction of bismuth	77	Matte, concentration of Cu. in	68
Review of process	78	Matte treatment, Freiberg	67
Furnaces inclined	7	Mercury lost in pan process, Austria	44
Gerstenhofer process	57	MECHERNICH, Lead Works at	29
Gold in Freiberg ores	65	Yearly product of mines	29
Gold ore in the Tyrol	40-41	Roasting	29
Gold ore, Austria	42-43	Artificial galena	30
Johnson furnace	37	Fusion	31
Hard lead production, Freiberg	76	Furnace dimensions	32
Hartz Mountains, Lead and Silver		Charge in smelting	32
Works of	81	Desilverization	33
Works at Clausthal	82	Dezincing	33
Composition of ore	83	Analysis of lead	34
Proportion of products	84	Treatment of matte	34
Charge, 1st fusion	84	Works at Osmern	35
Analyses of products	85	Desilverization, Osmern	35
Shaft furnaces	85	Analysis, pure lead	36
Kast furnace	87	Works at Call	36
Piltz furnace	89	Zinc charge	37
Rachette furnace	89	Removal of antimony	37
Desilverization at Lautenthal	90	Mill process for gold, European ..	41
Dezincing poor lead	91	Muldner Works, yield of	55
Dezincing rich alloy	92	Mines of Hartz, yield, 1871	101
Analysis of lead	93	Ores, Classification at Freiberg	56
Copper process at Altenau	94	Pan process, Austria	41-45
Table of copper process	95	Piltz furnace, Freiberg	62
Blowing the black copper	96	Piltz furnace, Hartz	89-101
Solution of copper in SO ₂	97	Poling	95
Blue vitriol	98	Precipitation process in the Hartz ..	82
Herbet process for desilverization ..	37	Precipitation (Cu.), improvement in	15
Idria	27	Preparatory series, Freiberg	57
Inhibition in Cupel furnace	93	Products of mercury distillation ..	26
Improvement in roasting	12	Products of Freiberg Works	58
— Addition of sulphuric acid	15	Proportionate yield, Au. and Ag., by	
— Precipitation as sulphide	17	fusion	50
— Manufacture of iron	18	Pulp used in pan process, Austria ..	44
Kast furnace	87-85	Pyritiferous ores	57-59
Kernel roasting Agordo	4	Rachette furnace, Hartz	85
Kiln roasting Altenau	94	Rauris	40
Lautenthal, works at	90	Review of Freiberg process	78
LEND, Gold and Silver Works at	40	Rips	27
Or-a smelted at	40-41	Roasting, Agordo	4-14
Mill process	41	Roasting at Freiberg	57
Austrian pan for gold	42	Roasting lead ore, Freiberg	62
Pulp	44	Roasting matte, Hartz	94
Extraction	44	Roasting, Mechernich	33-35
Smelting	45	Silver, separation at Call	37
First fusion	45	Skofe, cost of treatment	15

INDEX

ix

Slag in charge, Hartz	84	Zinc ores at Freiberg	59
Smelting gold ores at Lend	45	Zinc, removal of at Commern	35
Soluble sulphates in roasted ore	13	Do., in Hartz	91
Turner, Dr. Leo	40	Do., at Mechernich	33
United States, cost of Agordo process in	19	Do., at Call	37
VALALTA, Mercury Works at	20	FIG. ILLUSTRATIONS. PAGE.	
Furnace	24	1. Ore furnace, Agordo	8
Condensation	21-25	2. Black copper furnace, Agordo	9
Dimensions	23	3. Mercury furnace, Valalta	23
Condensation chambers	24	4 5. D. ers of roasting furnace	30
Tubes	24	6. Smelting fur ace, Mechernich	31
Loss	26	7. Austrian gold mill	42
Products	26	8-9. Reverberatory furnace, Freiberg	60
Expense of treatment	27	10. Do. Do.	61
Compared with other works	27	11. Pflitz furnace	64
Wet treatment for rich alloy	38	12-15. Cupel furnace, Freiberg	69
Zell	40	16-18. Kast furnace, Hartz	86
Zinc charge, Mechernich	33	19-20. Bachelts furnace, Hartz	88
Do., Commern	36	21. Do. Do.	89
Do., Call	37	22. Do. Do.	90
Do., Lantenthal	90-91		

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and processing, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that the data remains reliable and secure throughout its lifecycle.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of a data-driven approach in decision-making and the need for continuous monitoring and improvement of data management practices.
