To
the memory of
my Mother and Father,
the founders of
Peasemarth.

OF the Georgian Bay region, the author of "Birds of Ontario in Relation to Agriculture," who has studied bird life throughout the Dominion, has said that it is one of the greatest of bird homes and one of which but little has been written, and that greater notice should be given to the protection of birds in this part of Canada. Concerning Peasemarth Sanctuary, Mr. Nash has carried out this suggestion, interesting himself in all our questions, from the mysterious disappearance of Indigo Bunting's eggs to the protection of the Grouse in the bush, or the Heron on the pond. Only those who are endeavoring alone in far-away places to protect the feathered creatures can realize how much such an interest that never fails can give to the Sanctuary.

CONTENTS

	PAGE
