BOLINGBROKE AND WALPOLE

By the Rt. Hon. J. M. ROBERTSON.
Demy 8vo. Cloth. 12s. 6d. net.

Many years ago, in his "Introduction to English Politics" (recast as "The Evolution of States"), Mr. Robertson proposed to continue that survey in a series of studies of the leading English Politicians, from Bolingbroke to Gladstone. Taking up the long suspended plan, he has now produced a volume on the two leading statesmen of an important period, approaching its problems through their respective actions. The aim is to present political history at once in its national and its personal aspects, treating the personalities of politicians as important forces, but studying at the same time the whole intellectual environment. A special feature of the volume intended to be developed in those which may follow is a long chapter on "The Social Evolution," setting forth the nation's progress, from generation to generation, in commerce, industry, morals, education, literature, art, science and well-being.
