## P R E F A C E

---

THE following Lectures were originally prepared for delivery at the Huddersfield Infirmary. In their present more complete form they have been given to the Nursing staff of this Hospital; and they are now, for the first time, committed to the public, with an earnest hope that they may be found somewhat useful in connection with one of the most important medical questions of the present time, viz. the proper establishment, and efficient training of Nurses for Hospital, as well as private work.

COUNTY HOSPITAL, WINCHESTER;  
*August, 1875.*
