## The Foregleams of Christianity :

AN ESSAY ON THE RELIGIOUS HISTORY OF ANTIQUITY.

*Opinions of the Press on the Second Edition.*

' This remarkable essay we re-welcome with genuine pleasure. All who read it in the edition of 1878 should read it again, and for this reason—that owing to recent discoveries, much fresh light having been thrown on the history of religions, the essay has been practically re-written. The thoughts are all the author's own ; the vividness and accuracy of his perception thoroughly adapted to the difficulties of the task ; and the work, so clearly the result of deep and wide reading, savours not in the least of superficiality.'—*ECCLESIASTICAL GAZETTE*, May 29, 1893.

' He brings to his task several gifts of great value : a firm conviction of the truth of the Gospel, a wide study of several forms of heathenism, a talent of accuracy, a keen eye for the bearings of facts and expressions, and a great acquaintance with the modern literature of the subject, especially the researches of French students, so little known in England, but here introduced to our notice by long and very interesting quotations.' . . . ' We are of opinion that many Christians will be indebted to Mr. Scott for a deeper and fuller understanding of their faith, and of the way in which it meets the cravings of humanity ; '—*CHURCH QUARTERLY REVIEW*, October, 1893.

' Mr. Scott has produced a monograph which is orthodox yet scholarly, definite yet liberal, as is becoming in so faithful a disciple of Maurice. His pages are rich in illustrations drawn from a bewildering variety of sources ; some of his transcriptions from French sources are especially valuable and suggestive.'—*CHRISTIAN WORLD*, February 23, 1893.

' Mr. Scott is evidently at home in treating of the various phases under which mankind has conceived at various times of the Deity. He epitomises the truth which is distorted in such worships as Fetichism, Polytheism, Anthropomorphism, and the rest, with excellent judgment ; and his chapter dealing with " Corruption from Progress " in various countries is a masterly one. Without accepting all Mr. Scott's conclusions, we welcome his book as an antidote to the agnostic theories of the day, and as a substantial, even brilliant, argument in favour of the great truths of Christianity.'—*FREEMAN'S JOURNAL*, February 10, 1893.

' The aim of Mr. Scott's learned and thoughtful book on " The Foregleams of Christianity " is to supplement, in an independent fashion, the researches into comparative religion of the late Rev. F. D. Maurice.' . . . ' The author's outlook is a singularly wide one,'—*SPEAKER*, January 28, 1893.

' If it were only for its quotations, the book would be valuable, but they are made to serve the purpose of a really telling and

ingenious argument, and one which ought at least to convince unbelievers that Christianity is not a religion that loves ignorance.'—*GUARDIAN*, February 1, 1893.

'We have gone a long way since Maurice delivered his Boyle Lectures, and Mr. Scott has kept his eye persistently on the masters who have spoken since.' . . . 'This essay in its revised edition will take its place in the great and fascinating course of study that lies before us—the study of comparative religions.'—*EXPOSITORY TIMES*, May, 1893.

'We have every confidence in recommending Mr. Scott's new edition to our readers.'—*RELIGIOUS REVIEW OF REVIEWS*, October 14, 1893.

'The book shows wonderful industry and collection of authorities, with an ingenious arrangement of the elements of the various religious systems, but whilst the great leading results may be acceptable as being (probably) commonly agreed on, one stands in doubt of "the sacerdotal organization of which the type has been most perfectly realized in the apostolical succession."'—*PRESBYTERIAN*, October 20, 1893.

'Certainly Mr Scott deserves thanks for having continued his able and suggestive work.'—*GLASGOW HERALD*, January 26, 1893.

'Some excellent remarks on the acceptance of polytheism by such races as the Greek may be found in *Foregleams of Christianity*,'—*HERBERT H. JEAFFRESON*, *THE CHURCH OF THE LIVING GOD*.

'Un savant anglais, W. Scott, en un livre que je regrette de ne pas voir traduit dans notre langue, *Foregleams of Christianity*, excelle à mettre en lumière la vérité de toutes les erreurs, la légitimité de tous les systèmes, faux par ce qu'ils nient, vrais par ce qu'ils affirment.'—*JOSEPH SERRE*, *LA RELIGION DE L'ESPRIT LARGE*.

#### *Opinions of the Press on the First Edition.*

'The appearance of such an essay, written from the orthodox side, by one who is no less fearless than true, augurs well for the future defenders of the Faith, and amply proves that really Catholic minds can be more liberal and broadly sympathetic than those whose boasted toleration has very awkward and narrow limits.' . . . 'In order to encourage our readers to procure the essay and study it with the attention it deserves, we just note the subjects of the chapters—' . . . 'For English readers we know of no better guide to the subject with which it deals, and venture to hope that the author may be induced to follow up a line of study for which he is so well prepared.'—*CHURCH TIMES*, December 27, 1878.

'To Mr C. N. Scott's "*Foregleams of Christianity*" must be assigned an important place among the semi-theological publications of the present season.' . . . 'Mr Scott's method may be heartily commended. This book bristles with information drawn from the most varied sources, and some of it is a result of a perusal

of quite recent publications. The argument, too, is well digested, and the style is always interesting, and at times almost fascinating.' . . . 'Nor will the mere personal preferences of the author prevent the "Foregleams of Christianity" taking its place among the honourable list of works originating in, or suggested by, the Boyle Foundation. If in nothing else, Mr Scott fully justifies his following in Maurice's footsteps by his apt introduction into the controversy regarding Dualism of Mommsen's explanation of the devotio, and Curtius' noble passage on the ethical significance of Apolline Worship.'—SCOTSMAN, *December 29, 1877.*

'The author makes discriminating use of the varied sources to which he recurs, but his pages are no mere echoes of other men's thoughts.' . . . 'So much we venture to press upon Mr. Scott, in return for the pleasure and instruction we have derived from his pages.'—DUBLIN REVIEW, *April, 1880.*

'We welcome with pleasure the work of a student, who, while making use of a large range of literature furnished by savans of all sorts, both English and continental, surveys the field of thought from an avowedly Christian standpoint.' . . . 'Readers of the Hibbert Lectures and similar productions will do well to consider the reasonings and conclusions of the book before us.'—CHURCH QUARTERLY REVIEW, *October, 1878.*

'To extract the kernel from the husk and shell in every system, and to exhibit its affinity to the "bread which came down from heaven," is the task which Mr. Scott has proposed to himself in this very able and very interesting volume.'—GUARDIAN, *April 10, 1878.*

'Really a suggestive, well-written, and useful work.'—ACADEMY, *June 1, 1878.*

'We have read with very great interest the sketches which he gives us of progress in Turanian Asia, in Egypt, in Hellas, at Rome and in Israel.' . . . 'Mr. Scott's voluminous notes and references will be found very valuable by the student.'—JEWISH WORLD, *November 14, 1879.*

'This is a remarkable book. It contains in small compass the results of a wide range of reading on the philosophy of history. But it is not a mere abstract or analysis of other people's opinions. In discussing the profound and abstruse questions which belong to the study of the history of religion, the writer brings a keenness and acuteness of insight to his task which mark him as one capable of handling these difficult questions. He is generally, if not always, accurate and scholarly; his style is lively and expressive.'—WORCESTER HERALD, *August 10, 1878.*

'Contains many passages of rich true thoughtfulness.' . . . 'The gradual development of the religious perception in man is extremely well portrayed.' . . . 'This thesis is powerfully maintained by a thorough inquiry into the history of civilisation in Turanian Asia, Egypt, Hellas, Rome, and Palestine.'—LIVERPOOL WEEKLY ALBION, *February 2, 1878.*

'Mr Scott, in the work named above, follows in Mr Maurice's train, confirming his conclusions by the aid of more recent researches and speculations.' . . . 'We can recommend the volume as thoughtful and suggestive. It brings forward many little known facts, and, by the novelty of the order in which it groups them, inculcates a useful moral.'—LITERARY CHURCHMAN, *July 27, 1878.*

'The justness of his principles, the calmness of his judgment, and the reverence of tone which is apparent in every page of his small volume, are hopeful promises for the future, as well as ground for satisfaction with the present publication.' . . . 'A volume which we have read with much interest and in which we, for the most part, fully agree.'—JOHN BULL, *December 29, 1877.*

'Our author successfully disposes of the notion that the more barbarous the condition of society, the more men were under the empire of religion, and the faster they have progressed in civilisation the more they have become emancipated from allegiance to invisible powers and their visible representatives;'—CHURCH WORK, *October, 1878.*

'Signalons à cette occasion un livre anglais savant et plein d'idées ingénieuses, intitulé : *Foregleams of Christianity*.'—ABBÉ DE BROGLIE, *PROBLÈMES ET CONCLUSIONS DE L'HISTOIRE DES RELIGIONS.*
