CHARLES PENDLEBURY

**LENSES AND SYSTEMS OF
LENSES. TREATED AFTER
THE MANNER OF GAUSS**

LENSES AND SYSTEMS OF LENSES.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the various methods and tools used to collect and analyze data. This includes both traditional manual processes and modern digital technologies, highlighting the benefits of automation and data integration.

3. The third part focuses on the challenges faced in data management, such as data quality, security, and privacy. It provides strategies to address these challenges and ensure that the data remains reliable and secure.

4. The fourth part discusses the role of data in decision-making and strategic planning. It explains how data-driven insights can help organizations identify trends, opportunities, and risks, leading to more informed and effective decisions.

5. The fifth part covers the importance of data governance and compliance. It outlines the necessary policies and procedures to ensure that data is handled in accordance with relevant laws and regulations.

6. The sixth part addresses the future of data management, including emerging trends like artificial intelligence, big data, and cloud computing. It discusses how these technologies will shape the way organizations manage and utilize their data.

7. The seventh part provides a summary of the key points discussed throughout the document and offers recommendations for further action and improvement in data management practices.

8. The final part concludes the document by reiterating the importance of data as a valuable asset and the need for continuous learning and adaptation in the ever-evolving digital landscape.

PRINTED BY W. METCALFE & SON, TRINITY STREET.

IN the following pages I have limited myself strictly to the consideration of that which is involved in the term "Lenses and Systems of Lenses"; and I have treated the matter in accordance with the methods of Gauss. But I hope that in course of time I may be able to extend the book so as to cover a wider area in the field of Geometrical Optics.

CONTENTS.

CHAPTER		PAGE
I.	REFRACTION AT A SINGLE SURFACE	1
II.	REFRACTION AT TWO SURFACES IN SUCCESSION	28
III.	REFRACTION AT ANY NUMBER OF SURFACES	52
IV.	ACHROMATISM	78
V.	THE DETERMINATION OF THE FOCI AND OF THE PRINCIPAL POINTS OF A SYSTEM OF LENSES. THE NODAL POINTS	80
VI.	THE DIFFERENT FORMS OF LENSES	85
<i>Appendix.</i>	ON CONTINUED FRACTIONS	91
