TABLE OF CONTENTS

HISTOLOGY		Page
Preparation of Histological Specimens.....		3
General Directions.....		3
Zenker's Fixative.....		9
Care of Knives.....		9
Solutions.....		10
Special Technique.....		11
Frozen Sections.....		11
Bone Sections.....		13
Stains.....		13
Delafield's Hematoxylin.....		13
Weigert's Stain for Elastic Tissue.....		14
Weigert's Iron Hematoxylin Stain.....		15
Fat Stains.....		15
Marsch-Bielchowsky Stain for Connective Tissue Fibers.....		16
Stain for Tubercle Bacilli.....		16
CLINICAL PATHOLOGY		
Examination of Blood.....		18
Leucocyte Counts.....		19
Red Cell Counts.....		21
Blood Platelet Counts.....		21
Hemoglobin Determination.....		21
Oliver Hemoglobinometer.....		21
Fleischl-Miescher Hemoglobinometer.....		22
Blood Smears.....		23
Jenner Stain.....		24
Wood Stain.....		24
Oxidase Reaction.....		24
Resistance of Blood Cells.....		25
Unwashed Cells.....		25
Washed Cells.....		25
Vital Staining.....		25
Coagulation Time.....		26
Formulas.....		27
Hayem's Solution.....		27
Acetic Acid.....		27
Platelet Counting Solution.....		27
Sodium Carbonate Solution.....		27
Jenner Stain.....		27
Aqueous Eosin Stain.....		27
Methylene Azure Stain.....		27
Examination of Transudates and Exudates.....		28
Pleural and Peritoneal Fluids.....		28
Specific Gravity.....		28
Albumin.....		28
Differential Cell Count.....		28
Spinal Fluids.....		28
Cyst Fluids.....		28
Butyric Acid Test for Globulins.....		29

	Page
Examination of Urine.....	30
Reaction	30
Specific Gravity.....	30
Albumin	30
Heat and Acetic Acid Test.....	30
Sulphosalicylic Acid Test.....	31
Spegler's Test.....	31
Sugar	31
Fehling's Test.....	31
Phenyldiazin Test.....	31
Benedict's Test.....	31
Indican	32
Blood	32
Guaiac Test.....	32
Benzidine Test.....	32
Dialo Reaction.....	32
Acetone	32
Diacetic Acid.....	32
Gerhardt's Test.....	32
Arnold's Test.....	33
Bile	33
Urobilin	33
Sugar, Quantitative Determination.....	34
Albumin, Quantitative Determination.....	34
Esbach Test.....	34
Total Urea.....	35
Doremus Method.....	35
Microscopical Examination.....	35
Formulae	35
Spegler's Reagent.....	36
Benedict's Qualitative Solution.....	36
Fehling's Alkaline Solution.....	36
Fehling's Copper Solution.....	36
Obermayer's Reagent.....	36
Ehrlich's Diazo Reagents.....	36
Esbach's Reagent.....	36
Arnold's Reagents.....	37
Ehrlich's Aldehyde Reagent.....	37
Examination of Gastric Contents.....	37
Total Acidity.....	37
Free Hydrochloric Acid.....	38
Combined Hydrochloric Acid.....	38
Lactic Acid.....	38
Kelling's Test.....	39
Blood	39
Rennin	39
Bile	39
Vomitus	39
Microscopical Examination.....	39
Muscle Fibers.....	39
Amebas	39
Gall Stones, Worms, etc.....	39
Blood	40
Bilirubin and Hydrobilirubin.....	40
Formulae	40
Phenolphthalein	40
Di.methyl.amido.azo.benzol	40
Examination of Stools.....	40

	Page
Altsarin	40
Ferric Chloride.....	40

CLINICAL ANALYTICAL METHODS

Use of the Balance.....	41
Volumetric Methods.....	42
Indicators	43
Standard Solutions.....	44
Preparation of N/10 Sulphuric Acid.....	44
Preparation of N/10 Sodium Hydrate.....	46
Melting Point Determination.....	46
Specific Gravity--Westphal Balance.....	47
Pycnometer	47
Nitrogen Partition in Urine.....	47
Kjeldahl Method.....	48
Urea in Urine.....	49
Benedict	49
Van Slyke and Cullen.....	50
Ammonia in Urine.....	52
Uric Acid in Urine.....	53
Colorimetric Method.....	53
Titration Method.....	55
Creatinine in Urine.....	56
Chlorides in Urine.....	57
Creatine in Urine.....	57
Phosphates in Urine.....	58
Sulphates in Urine.....	59
Bensidine Method.....	60
Barium Chloride Method.....	62
Total Acidity.....	64
Freeing Urine from Albumin and the Gravimetric Determination of Albumin.....	64
Glucose in Urine.....	65
Acetone and Diacetic Acid in Urine.....	66
Acetone and Oxylbutyric Acid in Urine.....	68
Amylase in Urine and Other Fluids.....	69
Phenolsulphonephthalein Test for Renal Function.....	71
Rowntree and Geraghty.....	71
Collection of Blood for Analysis.....	72
McLean Coefficient.....	73
Total Non-protein Nitrogen in Blood.....	74
Folin and Denis.....	74
Urea in Blood.....	76
Van Slyke and Cullen.....	76
Uric Acid in Blood.....	78
Folin and Denis.....	78
Sugar in Blood.....	79
Lewis and Benedict.....	79
Creatinine in Blood.....	80
Myers and Fine.....	80
Creatine in Blood.....	81
Chlorides in Blood.....	82
McLean and Van Slyke.....	82
Fat in Feces.....	84
Fat in Milk.....	85
Babcock	85
Colloidal Gold Reaction.....	85

BACTERIOLOGY

	Page
The Preparation of Clinical Colloidal Gold.....	86
Technique of Test.....	88
Notes on Interpretation of Curve.....	89
Detection of Mercury in Excretions.....	90
General Instructions for Laboratory Workers.....	92
Use of Sterilizers.....	94
Arnold Sterilizer.....	94
Autoclave.....	94
Dry Heat Sterilizer.....	94
Preparation of Nutrient Media.....	95
I Liquid Media.....	99
Litmus Milk.....	99
Dunham's Peptone Solution.....	100
Neutral Red Lactose Peptone.....	100
Nitrate Broth.....	100
Plain Broth or Bouillon.....	100
Sugar-free Broth.....	101
Carbohydrate Broth Fermentation Media.....	101
Carbohydrate Serum Water Fermentation Media.....	102
Inulin Serum Water.....	102
Jackson's Lactose-Bile Medium.....	102
Dextrose Broth.....	103
Calcium Carbonate Dextrose Broth.....	103
Dextrose Ascitic Broth.....	103
II Liquefiable Media.....	103
Nutrient Gelatin.....	103
Plain Nutrient Agar.....	104
Dextrose Agar.....	105
Blood Agar.....	105
Dextrose Ascitic Agar.....	105
Starch Agar.....	105
Sodium Glychocolate Agar.....	105
Glycerin Agar.....	107
Endo's Fuchsin Agar.....	107
North's Agar Gelatine Medium.....	107
III Solid Media.....	108
Plain Potato Medium.....	108
Glycerin Potato Medium.....	108
Loeffler's Blood-serum Medium.....	108
Lubenau's Glycerin Egg Medium.....	109
Preparation of Staining Fluids, Staining Technique, Etc.....	109
I Concentrated Stock Solutions.....	109
Bismarck brown (Vesuvium), conc. aqueous solution.....	110
Fuchsin (basic), conc. alcoholic solution.....	110
Gentian violet, conc. alcoholic solution.....	110
Methylene blue, conc. alcoholic solution.....	110
II Simple Staining Solutions, Mordants, Etc.....	110
Acid alcohol.....	110
Anilin-water.....	110
Bismarck brown stain.....	110
Carbolic acid solution (5 per cent.).....	110
Copper sulphate solution.....	110
Fuchsin (basic), aqueous.....	111
Fuchsin, carbol.....	111
Gentian violet, aqueous.....	111
Gentian violet, anilin water.....	111
Gram's iodine solution.....	111

	Page
Potassium hydrate solution (1:10,000).....	111
Sulphuric acid solution (5 per cent.).....	111
III Special Stains and Staining Methods.....	111
Capsule stain (Hiss).....	111
Flagella stain (Loeffler).....	112
Gram's staining method.....	112
Loeffler's alkaline methylene blue stain.....	112
Neisser's acid methylene blue.....	112
Pappenheim's stain.....	113
Spore stain.....	113
Ziehl-Neelsen stain.....	113
Preparation of Disinfecting Solutions.....	114
Carbolic acid, stock solution.....	114
Carbolic acid (C. P.) 5 per cent. solution.....	114
Carbolic acid (crude) 3 per cent. solution.....	114
Cresol, 2.5 per cent. solution.....	114
Iodine, tincture (U. S. P.).....	114
Mercuric chloride, stock solution.....	114
Mercuric chloride, 1:1,000 solution.....	114
Preparation of Miscellaneous solutions.....	114
Physiological salt solution, No. 1.....	114
Physiological salt solution, No. 2.....	115
Sodium citrate solution, No. 1.....	115
Sodium citrate solution, No. 2.....	115
BACTERIOLOGICAL TECHNIQUE	
General Directions.....	116
Animal Inoculations.....	117
Blood Cultures.....	120
Collection of Blood and Separation of Serum for Wassermann Test.....	123
Ear Cultures.....	124
Eye Cultures.....	125
Throat and Nose Cultures.....	125
Pus and Exudate Cultures.....	126
Urine Cultures.....	126
Stool Cultures.....	126
Vaginal Smears.....	127
Examination of Sputum.....	127
Examination for <i>B. Tuberculosis</i>	130
Examination for <i>Treponema pallidum</i>	131
Preparation of Bacterial Vaccines.....	132
Examination of Milk.....	136
SEROLOGICAL TECHNIQUE	
Differentiation of Types of Pneumococci.....	139
Salvarsanized Serum for Intraspinal Injection.....	142
Normal Serum for Subcutaneous Injection.....	144
Blood Tests for Transfusion Cases.....	144
Rapid Method.....	147
Wassermann Reaction.....	149
Widal Test.....	170
Dilution of Diphtheria Toxin for Schick Reaction.....	172
Dilution of Luetin.....	173
Dilution of "Old Tuberculin" of Koch.....	174
Acid-fast Organisms.....	174
Groups of Bacteria Classified According to Gram Stain.....	174
Fermentation Reactions of Gram-negative Group of Cocci on Sugar Serum Waters.....	175
Fermentation Reactions of a General Group of Gram-negative Bacilli.....	176
Fermentation Reactions of <i>B. Diphtherie</i> Group.....	177
