ILLUSTRATIONS

PLATE

	FACING PAGE
I. Geologic map showing clay localities.....	In pocket
II. (A) Bank of transported clay, Ward Bros. yard, Galax; (B) Pit in flood plain clay, Culpeper.....	9
III. (A) Brick works at Brodnax; (B) Clay pit at Brodnax.....	11
IV. (A) Brickyard at St. Paul's school, Lawrenceville; (B) Brickyard, Lawrenceville	12
V. (A) Flood plain clay, Douthat & Riddle yard, two miles east of Danville; (B) Clay pit in flood plain deposit, Deacon, east of Lynchburg...	14
VI. (A) Horse-power pug mill, Bolling's yard, Farmville; (B) Clay bank, Ivey's brickyard, Chatham.....	22
VII. (A) Triassic shale in cut, one mile north of Wolftrap; (B) Triassic shale at brick works near Leakeville Junction.....	24
VIII. (A) Clay overlying slate, north of Arvonia; (B) Section showing sharp contact between clay and slate shown in view above.....	27
IX. (A) New cut on Southern Railway near Orange; (B) Old cut near City Farm station, southeast of Lynchburg. Residual clay from rocks of Cambrian age.....	31
X. (A) Pipe works at Pamplin; (B) Kiln at Stevensburg brick plant.....	49
XI. (A) Residual clay near Lawrenceville; (B) Residual clay near Alberta..	57
XII. (A) Residual clay near Louisa; (B) Residual clay containing limonite near Pittaville	65
XIII. (A) Drying racks, Danville; (B) Brick kilns, Deacon, east of Lynchburg	70
XIV. (A) Church constructed of brick made from local clay and erected before the Civil War; (B) Kaolinized pegmatite in railroad cut near Motley	75
XV. (A) Steamshovel excavating flood plain clay at Deacon, east of Lynchburg; (B) Tunnel in Jackson's kaolin deposit near Altavista....	78
