SUPERINTENDENT OF MINES.

OTTAWA, CANADA.  
1904.

Review 1-8-40 MJS

SIR,—

I have the honour to submit herewith a report on the Location and Examination of Magnetic Ore Deposits by Magnetometric Measurements, which was read at the Annual Meeting of the Canadian Mining Institute on March 5th, 1903.

I have the honour to be,

Sir,

Your obedient servant,

EUGENE HAANEL,

*Superintendent of Mines.*

HONOURABLE CLIFFORD SIFTON

*Minister of the Interior,*

*Ottawa.*

## TABLE OF CONTENTS.

	PAGES
Introduction ... .. .	1-2
CHAPTER I.	
MAGNETS AND THEIR PROPERTIES.	
Definition of magnet. Poles. Law of attraction and repulsion. Theory of the constitution of magnets	3-4
CHAPTER II.	
THE MAGNETIC FIELD.	
Lines of force. Strength of a magnetic field at a point. Conservation of flow of force. Construction of diagrams of magnetic fields. Diagrams of unipolar magnetic fields. Diagrams of bipolar magnetic fields. 1st: Two unlike poles of equal strength; 2nd: Two unlike poles of different strengths. Equation of a line of force. Inductive effect of the magnetic field upon magnetic bodies ..	4-13
CHAPTER III.	
The earth's normal magnetic field ... .. .	14-16
CHAPTER IV.	
THE DISTURBED TERRESTRIAL FIELD OF FORCE.	
Relation of dip to intensity of magnetization ... .. .	16-18
CHAPTER V.	
Effect of a magnet on a compass needle in a normal terrestrial field ... .. .	18-23

## CHAPTER VI.

## THE THALÉN-TIBERG MAGNETOMETER.

	PAGES
<i>Description</i> : The compass. The support of the compass with its deflecting magnet.	
<i>Testing and adjusting the magnetometer</i> :	
1. Examination of error due to eccentric suspension of compass needle.	
2. Examination whether axis of rotation of support is perpendicular to plane of box-level $D$ , on base plate $P_3$ .	
3. Examination whether axis of compass box is perpendicular to vertical axis of rotation of support.	
4. Examination whether the vertical screw of bar $Q$ when in contact with the lower plate of compass box renders compass box horizontal.	
5. Examination whether the horizontal screw of the bar $Q$ when in contact with plate $P_2$ of compass box indicates its vertical position.	
6. Neutralization of the vertical component of the earth's normal field.	
Precautions to be observed in taking observations with the magnetometer ... ..	24-32

## CHAPTER VII.

<i>Method of observation</i> : (With the Thalén-Tiberg magnetometer).	
Horizontal Intensity of a magnetic field ... ..	33-36

## CHAPTER VIII.

## DAHLBLOM'S MODIFICATION OF THE SINE METHOD.

Method of observation. Calibration of millimeter scale and construction of scale for reading $R$ direct ... ..	37-42
--	-------

	PAGES
CHAPTER IX.	
The value of the horizontal intensity in a terrestrial field of force, disturbed by the presence of a magnetic ore body . . . . .	43-48
CHAPTER X.	
THE VERTICAL INTENSITY OF THE DISTURBED FIELD.	
Theory of the Inclinator. Determination of the value of <i>K</i> . Method of observation . . . . .	49-56
CHAPTER XI.	
THE THOMSON-THALÉN MAGNETOMETER.	
Description. Theory. Calibration . . . . .	56-65
CHAPTER XII.	
Description of the Swedish mining compass . . . . .	65-66
CHAPTER XIII.	
INVESTIGATION OF MAGNETIC ORE DEPOSITS BY MAGNETOMETRIC MEASUREMENTS.	
Chart of the Horizontal Intensity. Charts of Vertical Intensity . . . . .	67-74
CHAPTER XIV.	
Information conveyed by the charts of magnetic intensity . . . . .	74-80
CHAPTER XV.	
Determination of the distance of the upper pole of a magnetic ore body beneath the surface. Four methods . . . . .	81-86
CHAPTER XVI.	
Determination of the extension in depth of a magnetic ore body. 1st: Method by Dahlblom. 2nd: Method by Robert Thalén . . . . .	87-94

## CHAPTER XVII.

	PAGES
Laboratory Practice ... ..	94-99

## APPENDIX.

## THE DAHLBLOM MAGNETOMETER.

Description of the Magnetometer. Adjustment of the Magnetometer. Measurement of Horizontal Intensity. Measurement of Vertical Intensity ...	99-105
---	--------

## LIST OF TABLES.

Table I. Table of values of $\frac{\sin a_0}{\sin a}$ ... ..	106-110
Table II. Table of values of $\frac{\tan a_0}{\tan a}$ ... ..	111-115
Table III. Table of values of $\left(\frac{1}{n}\right)^{\frac{1}{2}}$ from $n = 0.01$ to $n = 5.00$ ... ..	116
Table IV. Table of natural tangents ... ..	117
Table V. Table for the reduction of the angles $v$ observed with the Tiberg Inclinator:	
$V_n$ from 1 to 41; $k_n$ from 0.50 $H$ to 0.90 $H$	118
$V_n$ from 42 to 90; $k_n$ from 0.50 $H$ to 0.90 $H$	119
$V_n$ from 1 to 49; $k_n$ from 0.95 $H$ to 1.40 $H$	120
$V_n$ from 50 to 90; $k_n$ from 0.95 $H$ to 1.40 $H$	121
$V_n$ from 1 to 51; $k_n$ from 1.45 $H$ to 1.80 $H$	122
$V_n$ from 52 to 90; $k_n$ from 1.45 $H$ to 1.80 $H$	123
Table VI. Table of $\cot x$ and $x^\circ$ ... ..	124-125
Index ... ..	127-132
