LOGICAL PRAXIS:

COMPRISING

A SUMMARY OF THE PRINCIPLES OF
LOGICAL SCIENCE

AND

COPIOUS EXERCISES FOR PRACTICAL APPLICATION.

BY

HENRY N. DAY,

AUTHOR OF

ELEMENTS OF LOGIC, RHETORIC, RHETORICAL PRAXIS, ESTHETICS, ETC.

NEW YORK:
G. P. PUTNAM'S SONS.
FOURTH AVE. AND 23D ST.
1876.

Entered according to act of Congress, in the year 1871, by
HENRY N. DAY,
In the Office of the Librarian of Congress, at Washington, D. C.

BH
D27

P R E F A C E .

The more especial objects in the preparation of this work are : first, to bring the study of Logic within the course of instruction commonly prescribed in our colleges and seminaries, both as to the time allotted to it and also the stage of advancement in the course ; and, secondly to present the science in a more strictly scientific form and method than is to be found in most of the text books.

The book is accordingly designed for those who are first entering upon the study of mental science, and to be mastered by them in from four to eight weeks of study, according to the proficiency of the student, the portion of time allowed, and the extent to which the practice is carried.

The work is constructed on the exactest principles of logical method, being itself designed to exemplify these principles in the definitions and the scientific evolution of all the generic laws and forms of thought from its own nature. For a more extended exposition of the science and a vindication of what is new and peculiar in this more exact treatment of logic, the reader is referred to the author's larger work on the same general plan, entitled "Elements of Logic."

CONTENTS.

INTRODUCTION.

§ 1. *Logic* Defined as an Exact Science of Thought. § 2. Thought, the Term as used in Logic, Defined. § 3. *Logic* more fully Defined. § 4. Logical Science Divided into Doctrine of Elements and Doctrine of Method.

PART I.

ELEMENTS OF THOUGHT.

CHAPTER I.—LAWS OF THOUGHT.—§ 5. Laws Founded in Relation of Object to Attribute—Identity. § 6. Primitive and Derivative Thought. § 7. Positive and Negative Thought. § 8. Law of Contradiction. § 9. Law of Disjunction. § 10. Law of Exclusion. § 11. The Four Fundamental Laws.

CHAPTER II.—FORMS OF THOUGHT—I. THE JUDGMENT.—§ 12. The Judgment Defined. § 13. Thinking Distinguished from its Object or Matter. § 14. Matter of Thought; Terms; Copula. § 15. Judgment Composed of Three Elements.

EXERCISES IN THE PARTS OF A JUDGMENT.

§ 16. Kinds of Judgments. § 17. Divisions in Respect to Copula. § 18. Quality of the Copula—Simple and Disjunctive. § 19. Affirmative and Negative Judgments. § 20. Disjunctive Judgment. § 21. Disjunct Members. § 22. Disjunction either in Copula or Terms. §§ 23, 24. Logical Opposition—Pure, Contradictory, Contrary. § 25. Logical Congruence. § 26. A Disjunctive

Judgment always Disjoins. * 27. Modality of the Copula. § 28. Divisions of Judgments in Respect to Modality—Assertory, Necessary, Contingent. § 29. Divisions of Judgments in Respect to Degree of Identification—Identical, Partial. § 30. Divisions of Judgments in Respect to Quality of the Terms—Categorical, Hypothetical. § 31. The Dilemma.

EXERCISES IN THE KINDS OF JUDGMENTS.

CHAPTER III.—FORMS OF THOUGHT.—2. THE CONCEPT.—§ 32. The Two Derivative Forms of Thought. § 33. The Concept Defined. § 34. Subject-concept and Predicate-concept. § 35. Single Concept; Simple Concept. § 36. Generic Concepts. § 37. Composite Concept. § 38. Definitions of the Several Kinds of Concepts. § 39. Logical Quantity—Extensive and Comprehensive. § 40. Amplification of Concepts; Generalization. § 41. Determination. § 42. Division. § 43. Partition. § 44. Relation of Extensive and Comprehensive Quantity. § 45. Nomenclature.

EXERCISES IN CONCEPTS.

CHAPTER IV.—FORMS OF THOUGHT.—3. THE REASONING.—§ 46. Reasoning Defined; its Two Parts and Signs. § 47. Its Two Kinds; Immediate and Mediate. § 48. Kinds of Immediate Reasonings: (1), Conversion. § 49. (2), Restriction. § 50. Modal Restriction. § 51. Quantitative Restriction. § 52. (3), Disjunction. § 53. (4), Transference of Quality. § 54. Transference of Modality. § 55. (5), Composition.

EXERCISES IN IMMEDIATE REASONINGS.

§ 56. Mediate Reasonings—Syllogisms; Categorical and Conditional. § 57. Categorical Reasonings; Deduction. § 58. Induction.

EXERCISES IN CATEGORICAL REASONINGS.

§ 59. Deductive Syllogism; its Nature and Principle. § 60. Its Three Terms—Major, Middle, and Minor. § 61. Its Three Propositions—Sumption, Subsumption, and Conclusion. § 62. Order of Statement. § 63. Quality of Propositions. § 64. Logical Mood and Figure.

EXERCISES IN DEDUCTIVE REASONINGS.

§ 65. Inductive Syllogism; its Nature and Principle. § 66. Its Three Terms and Propositions.

EXERCISES IN INDUCTIVE REASONINGS.

§ 67. Conditional Syllogisms. § 68. Its Two Modes—Ponent and Tollent. § 69. Its Two Kinds—Hypothetical and Disjunctive. § 70. Hypothetical Syllogism. § 71. Its Three Propositions. § 72. Its Two Modes—Ponent and Tollent. § 73. The Dilemma; its Four Forms.

EXERCISES IN HYPOTHETICAL REASONINGS.

§ 74. Disjunctive Syllogism—its Nature and Principle. § 75. Its Three Propositions.

EXERCISES IN DISJUNCTIVE REASONINGS.

§ 76. Irregular Syllogisms; Kinds. § 77. Complex Reasonings. § 78. The Polysyllogism. § 79. The Sorites and Epichirema. § 80. Progressive and Regressive Reasonings.

EXERCISES IN IRREGULAR REASONINGS.

PART II.

METHOD OF THOUGHT.

CHAPTER I.—INTRODUCTION.—§ 81. Logical Method; its Province. § 82. Threefold Conditions of Perfect Thought. § 83. Originating and Verifying Thought. § 84. Matter of Thought; its Reality. § 85. Material Conditions of Perfect Thought—Unity and Objective Congruence, Adequateness, and Accurateness. § 86. Kinds of Attributes—Quality, Action, Condition, and Relation. § 87. Formal Conditions of Perfect Thought—Logical Congruence, Clearness, Distinctness. § 88. Necessary and Contingent Truth. § 89. Applications of Thought to its Object. § 90. Verbal Conditions of Perfect Thought—Correctness and Perspicuousness. § 91. Classes of Nouns—Concretes. § 92. Attributes.

CHAPTER II.—METHOD OF THOUGHT—THE JUDGMENT.—§ 93. Verification of *Datum*. § 94. Material Conditions of a Judgment—Congruence. § 95. Adequateness. § 96. Accuracy. § 97. Formal and Verbal Conditions. § 98. Method in Disjunctive Judgments. § 99. In Modal Judgments. § 100. In Partial Judg-

ments. § 101. In Hypothetical Judgments. § 102. Summary of Conditions in Judgments.

CHAPTER III.—METHOD OF THOUGHT—THE CONCEPT.—
§ 103. Verification of the *Datum*. § 104. Concepts Framed for Occasions of Use. § 105. Objective Laws of Concept. § 106. Subjective Law of Concepts. § 107. Generalization. § 108. Determination. § 109. Subjective Law of Concepts—Definition. § 110. Analysis. § 111. Division. § 112. Principle of Division. § 113. Rules of Division. § 114. Partition. § 115. Principle of Partition. § 116. Rules of Partition.

CHAPTER IV.—METHOD OF THOUGHT—THE REASONING.—
§ 117. Verification of the *Datum*. § 118. Order in Verifying. § 119. Objective Law of Reasonings. § 120. Subjective Law of Reasonings. § 121. In Conversion. § 122. In Restriction. § 123. In Disjunction. § 124. In Transference. § 125. In Composition. § 126. In Mediate Reasonings. § 127. In Deductive Reasonings. § 128. Practical Rules for Verifying a Deduction. § 129. In Inductive Reasonings. § 130. In Hypothetical Reasonings. § 131. Practical Rules for Verifying a Hypothetical Reasoning. § 132. In the Dilemma. § 133. In the Disjunctive Reasoning. § 134. Practical Rules for Verifying a Disjunctive Reasoning. § 135. In the Polysyllogism. § 136. Fallacies; Kinds. § 137. Objective Fallacies. § 138. Formal Fallacies. § 139. Verbal Fallacies.
