CONTENTS.

CHAPTER	PAGE
I. SIR BEVIS	1
II. AT HOME	22
III. ADVENTURES OF THE WRESEL	47
IV. BROOK-FOLK	88
V. KAPCHACK	111
VI. THE SQUIRREL	134
VII. THE COURTIERS	161
VIII. THE EMPEROR CHOO HOO	203

The following table shows the results of the experiment. The first column is the number of trials, the second column is the number of correct responses, and the third column is the percentage of correct responses. The data shows that the percentage of correct responses increases as the number of trials increases, indicating that the subject is learning the task.

Number of Trials	Number of Correct Responses	Percentage of Correct Responses
10	4	40%
20	8	40%
30	12	40%
40	16	40%
50	20	40%
60	24	40%
70	28	40%
80	32	40%
90	36	40%
100	40	40%

The results of the experiment show that the subject is able to learn the task and maintain a consistent level of performance. The percentage of correct responses remains constant at 40% throughout the experiment, suggesting that the subject has reached a plateau of learning.
