**A BOOK
OF GIANTS**

A·BOOK OF·GIANTS

DRAWN·ENGRAVED
AND·WRITTEN·BY
WILLIAM STRANG
LONDON·THE·UNICORN PRESS

GO FORTH! brave Giant-book of ours,
To lowly cots and lordly towers ;
And travel far to every land,
To China and to Samarcand,
Showing, in manner scientific,
The lives of Giants most terrific.
By wicked critics 'twill be said,
A Giant might have died in bed,
And that the tales are much too diety,
And somewhat lacking in variety.
Go! tell them they are dolts indeed!
That Giants only live to feed ;
That with their latest righteous breath
They scorn to die a natural death.

Their whole existence thus depends
Upon their meals and violent ends,
Giving to children, young and old,
Delights and pleasures manifold.

THE BOOK OF GIANTS

NUMBER ONE—THE FAT GIANT

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

2. The second section covers the process of reconciling bank statements with the company's internal records. It highlights the need to identify and explain any discrepancies between the two sources. Regular reconciliation helps in detecting errors or potential fraud early on.

3. The third part of the document addresses the issue of budgeting and cost control. It suggests that setting a clear budget at the beginning of each period can help in monitoring expenses and staying within the allocated funds. This is crucial for the financial health of the organization.

4. The fourth section discusses the importance of timely reporting and analysis of financial data. It notes that regular reviews of financial statements provide valuable insights into the company's performance and help in making informed decisions.

5. Finally, the document concludes by emphasizing the role of technology in modern accounting. It mentions that using accounting software can streamline the process, reduce the risk of human error, and provide real-time access to financial information.
