## PREFACE.

---

THE arrangement of this book is simple and hardly needs explanation. From John Gallup of the second generation who married Hannah Lake, there are only two lines, those of his two sons John and Benadam. His son William left no sons, and of Samuel there is no record.

As John was the oldest, his line is given first in order and that of Benadam following through all the generations, being easily understood by the names and figures placed after each individual whose history is given. The small figures denote the generations.

Any descendant may thus readily trace his own line back to John the pioneer settler.

Those only are numbered who bear the name Gallup, and may be found in the first index.

Names of those connected with the family by marriage are in the second index.

The abbreviations are b. born; m. married; d. died; s. p. died without issue.

## INTRODUCTION.

---

"Tell ye your children of it, and let your children tell their children, and their children, another generation. —*Joel, 1-3.*"

---

In this simple, natural, and best of all ways, there has come to us an incomplete knowledge of that past in which our ancestors lived, well and worthily, their appointed lives.

A reverent love for that time, glorified by the heroic deeds of our fathers, and the fearless devotion of our mothers, has unconsciously become one of our noblest mental possessions, inspiring to zealous search for recorded facts in the life history of those whose lips can no longer tell it to their children.

To verify and keep forever these stories of heroism, familiar from our childhood, and more precious than any written volume, this book has been written, that the children, and children's children may enjoy with us, and keep in memory the gathered harvest of fact, event, and incident, from the different branches of our venerable family tree.

May it intensify our reverence for the strong characters in the beginning of our family history, and more firmly seal the feeling of friendly kinship between those who have not yet attained the ancestral rank.

It was the thought of the author when beginning this work to compile only a brief history of his own branch of the family, but yielding to the solicitation of other branches, he consented to enlarge his plan, and hoped to embrace all of the lineage in the United States. But, finding it impossible to obtain records of all, in justice to those who have so long waited for the appearance of the book, the writer is constrained to suspend his researches and bring the work to completion, after having given it a vast amount of time and labor.

That errors will occur, notwithstanding the greatest care upon the compiler's part to avoid them, will be understood by all, but in no case has there been any liberty taken with dates. They are published as taken from old family Bibles, copies of records supplied by individuals, and from the examination of town and church records.

This introduction would be incomplete without an expression of cordial appreciation for all the *valuable help* so kindly, freely and wisely given by different individuals from the beginning to the end of the finished work.

Will one and all accept the sincere acknowledgments of the author for the priceless importance of aid received, and the generous and encouraging spirit that always came with it, which, though perfectly understood, can never be completely expressed by the grateful

AUTHOR.
