Report for the Corporation.

To the Board of Education of the State of Massachusetts:

GENTLEMEN:—The entire number of pupils taught in the Clarke School for the Deaf during the past year has been 148. Of these, 117 were supported by the State of Massachusetts, 6 by Vermont, and 7 by New Hampshire. The number of pupils maintained by their own families was 13. One pupil from Syria has been now for several years supported at the expense of the school. In presenting the report for the past year to your honorable body, it is my first duty gratefully to acknowledge the cordial response made to our request one year ago for an increase in the payment for each child committed to our care by the State. The amount received from the treasury of the Commonwealth for each pupil is still less than the annual cost to the school, but the amount now paid for all the pupils added to the income, \$14,000, from our fund, is, we trust, sufficient to meet our annual expenses without burdening us with a large deficit at the close of each year. The amount now paid by the State for each pupil, \$200, may seem to those not familiar with the conditions large, but even in the day schools established in many of the western cities the amount paid by the municipality is \$150 a year for each pupil, covering instruction for five or six hours for five days in the week during thirty-six weeks of the year. It will thus be seen that the additional \$150 paid for each of our pupils secures food, lodging, washing, personal watchfulness, and all the advantages of an equip-
