COMMITTEE ON EDUCATION OF THE INDIANA PHARMACEUTICAL ASSOCIATION.

LEO ELIEL, South Bend.

CHARLES O. PRUTZMAN, Muncie.

GENERAL STATEMENT.

PURDUE UNIVERSITY is the State Institute of Technology. It derives its name, through legislative enactment, from John Purdue, who gave to the State for the use of the institution one hundred and fifty thousand dollars. It has also received a number of gifts from other individuals.

It has an endowment fund of three hundred and forty thousand dollars, received from the general government, and is further supported by legislative appropriations and by the proceeds of annuities granted by the general government.

Its non-productive plant is valued at about nine hundred thousand dollars. This includes one hundred and eighty acres of land, twenty-eight buildings, and a most extensive equipment, including laboratories, shops, museums, library, and reading rooms.

The institution embraces six schools: Mechanical Engineering, Civil Engineering, Electrical Engineering, Agriculture, Science and Pharmacy.

The School of Pharmacy offers excellent training for those who expect to engage in the retail

drug business, and for those who desire to enter the laboratory of a manufacturing pharmacist. The instruction also constitutes a good preparatory course for those who anticipate attending a school of medicine.

Students in Course I are engaged at the University about six hours each day. About two-thirds of this time is devoted to laboratory work, and one-third to lectures and recitations. There are neither lectures, recitations nor quizzes in the evening, that time being allotted to home study and to preparation for the ensuing day's work. The student has, therefore, no time for clerking in a drug store, and must devote his undivided time and energy to his school work.

A complete catalogue of the University will be sent on application.

All correspondence relating to the School of Pharmacy should be addressed to ARTHUR L. GREEN, DEAN, LaFAYETTE, INDIANA.

SPECIAL STATEMENT REGARDING THE PHARMACY LAW.

An act of the Legislature of 1899 requires all druggists in Indiana to obtain a license. In order to secure such license the applicant must (1) pass an examination—(2) according to the grade of license sought, must have had either two or four years' experience in a drug store or pharmacy.

Section 8 of this Act provides further that,

"In the case of an applicant for license as a Registered Pharmacist or as a Registered Assistant Pharmacist, who is a graduate of a school of pharmacy of such standing and requirements as are satisfactory to the Board of Pharmacy, the actual time spent in attendance at such school, shall be accepted as an equivalent for a term of service of equal length in a store or pharmacy where physicians' prescriptions are compounded."

The authorities of Purdue University are gratified to be able to announce that the Indiana Board of Pharmacy at its regular meeting held July 12, 1899, had under consideration the standing and requirements of Purdue School of Pharmacy and found the same satisfactory in all respects. In accordance with this decision, it agrees, in the case of graduates of this school, to accept the time spent in attendance as an equivalent to an equal time spent in actual service in a store or pharmacy.
