LETTER OF TRANSMITTAL

UNITED STATES DEPARTMENT OF AGRICULTURE,
OFFICE OF EXPERIMENT STATIONS,
Washington, D. C., January 27, 1911.

SIR: I have the honor to transmit herewith a report on irrigation in California, prepared by F. W. Roeding, irrigation manager, under the direction of Samuel Fortier, chief of irrigation investigations of this Office. This is one of a series of reports dealing with irrigation in the arid States and Territories prepared for the purpose of answering inquiries regarding conditions and the opportunities and cost of settlement which come to this Department in great numbers. The work on this report was done under a cooperative agreement between the Office of Experiment Stations and the State of California, each paying half the expenses.

It is recommended that the report be published as a bulletin of this Office.

Respectfully,

A. C. TRUE,
Director.

HON. JAS. WILSON,
Secretary of Agriculture.
