A NARRATIVE
OF THE
DROUGHT AND FAMINE

WHICH PREVAILED IN THE
NORTH-WEST PROVINCES

DURING THE YEARS
1868, 1869, and beginning of 1870:

COMPILED BY
FREDERICK HENVEY,
OFFICIATING JUNIOR SECRETARY TO THE GOVERNMENT OF THE
NORTH-WEST PROVINCES.

ALLAHABAD:
PRINTED AT THE GOVERNMENT PRESS, NORTH-WESTERN PROVINCES.
1871.

TABLE OF CONTENTS.

CHAPTER I.—INTRODUCTION.	PAGE.
LIABILITY OF THE NORTH-WESTERN PROVINCES TO DROUGHT AND FAMINE —The liability ascribed—First, to uncertainty of the seasons; and secondly, to the large and increasing numbers of labourers depending on daily wages and liable to be thrown out of employ in time of pressure,	1, 2
State of the North-Western Provinces in 1868-69 compared with previous years of famine. Advantages and disadvantages,	2, 3
ACCOUNT OF THE SEASON —Rains of 1868, and cold weather, 1869—Hail-storms in the spring—Effect on the crops, and condition of the country—Rains of 1869—Continued rise of prices,	3
The famine ended in October, 1869, excepting Ajmere,	3
MEASURES DIVIDED INTO PRECAUTIONAL, ACTIVE, AND INDIRECT,	4
PRECAUTIONAL MEASURES —Circulars, instructions, and rulings of Government on various points,	4, 5
ACTIVE MEASURES —Instructions of Supreme Government observed—Principles of relief and system pursued—Incomplete registration of traffic—Stimulation of grain-trade,	5-7
INDIRECT MEASURES —The Lieutenant-Governor's appeal to the public—When withdrawn—Subsequent growth of distress and exhaustion of Central Committee's Funds,	7, 8
Government accepts responsibility of further charges—Central Committee's active operations cease, and orders issued to contract relief operations,	8
REMISSION OF LAND REVENUE —Necessary in famines—Computation of loss,	8, 9
TUCCAVES ADVANCES —Ordinary—Extension in times of famine—Advances for cattle and seed—Benefit derived therefrom—Amount disbursed,	9
THE LIEUTENANT-GOVERNOR'S POLICY SUMMED UP,	9
CHAPTER II.—THE MEERUT DIVISION.	
GENERAL REMARKS ON THE DIVISION —Its natural and artificial advantages—Improvements since 1861—Comparative immunity from famine,	10
DENBA DOON —Means of irrigation—No famine in 1868-69—The grain-market—Dependence for supplies on the Doab,	10, 11
SAHARANPORE —Advantages and disadvantages—The drought and its effects—Grain-trade and prices—Symptoms of distress in beginning of 1869—Details of relief—Tuccaves,	11-14
MOOSUPPERNAGOUR —Partial failure of crops—Causes which mitigated distress—Measures taken—Trade—Exports—Details of relief,	14, 15
MEERUT —Cause of scarcity—Facilities for irrigation and trade—The rains of 1868—Trade Westward at the close of 1868—Spring crops of 1869—Estimate of exports—No great distress—Details of relief,	15-17
BOOLUNDESHWAR —The drought severe—Extent of irrigation, trade and markets—No severe distress,	17
ALLYOURE —Protected by irrigation—Injury caused by drought—Grain-traffic and prices—Favourable rains in 1869,	17, 18
CHAPTER III.—THE AGRA DIVISION.	
GENERAL REMARKS ON THE DIVISION —Irrigation—Means of communication—The division as a rule well protected—Exceptional tracts—Rain-storm in September, 1868.	19
MOTTA —Effects of drought—Prices—Immigration from Rajpootana—Labour and charitable relief—Collection of Revenue,	19-21
AGRA —The season and crops—Prices and grain traffic,	21, 22
Distress and precautions taken—Immigration,	22, 23
Poorhouse relief—Numbers, cost, and adjustment,	23
Labour relief—Numbers, cost, and adjustment,	24
Concluding remarks,	24

	PAGE.
ETAH.—Position of the district,	24
Drought—Failure of fodder and crops—Construction of wells—Rubber outturn,	24, 25
Trade—Exports and imports,	25
Distress, and relief on works and in poorhouses, *	25
Relief of travellers and instances of Native charity,	25, 26
FURUCKABAD, ETAWAH, AND MYNPORE.—Effects of the drought—Exports and prices, Details of relief in the three districts,	26, 27

CHAPTER IV.—THE ROHILKHUND DIVISION.

REMARKS ON THE DIVISION.—Deficiency of irrigation—Absence of wells in Bijour and Moradabad—Canals—Means of communication—Liability to obstruction by floods,	28
BIZOUR.—Mainly dependent on rice and sugar—Soil sandy—Few wells, and little trade, The drought—Destruction of <i>khureef</i> crops—Rain-fall in January and February, 1869. Outturn of crops—Sugar sown,	28, 29
Signs of distress—Aid given—Suspensions ordered—Works suggested,	29
Labour relief—Nageena Canal—Growth of distress in March—Gradual lowering of wages—Distress in August—Works closed in October—Cost—Outturn of work, Poorhouse relief—Details—Preponderance of children explained—Cost and adjust- ment,	29-31
TUCCOEE.—Amount disbursed and purposes,	31, 32
Trade—Importations and course of traffic,	32, 33
MORADABAD.—Causes of distress—Absence of <i>kutch</i> wells—Condition in November, 1868—Efforts to extend irrigation—Condition in December—Rain in January and February, 1869,	33, 34
Distress in July, 1869—Failure of stocks—End of famine after rain of 1869,	34, 35
Measures of relief—Famine works—Details,	35, 36
Charitable relief—Numbers—Cost and adjustment,	36
Grain traffic,	36
BAREILLY.—Fertility—Irrigation—Means of communication,	37
The drought—Rain in September, 1868—Storms in March, 1869,	37
The spring outturn—Casual distress,	37, 38
Prices, and remarks thereon,	37, 38
Measures of relief undertaken in first six months of 1869—No urgent distress at that time,	38
Crisis in July, 1869—Officers deputed—Their reports and explanation of increased pressure,	38
Details of relief—Fifteen gangs—Numbers on special and district works,	38
Charitable relief—Numbers—Adjustment and course of distress,	39
Physical effects of famine—Lunacy and blindness,	40
Mode of poorhouse relief—Selection of applicants,	40
Summing up of measures taken,	41
Trade—Want of statistics—Importations,	41, 42
SHARJHANPORE.—Fertility—Absence of Canals—Roads,	41, 42
The drought and its effects—Outturn of spring harvest—Exports,	42
Failure of stocks in July, 1869,	42
Relief—Poorhouses—Pressure short but sharp—Labour relief—End of famine,	42
BUDAON.—Depletion of stocks—Condition in September, 1868— <i>Khureef</i> outturn,	42
Exports in October, 1868—Rise of prices—Rain in February, 1869,	43
Distress in July—Outturn of work—Classes employed,	43
Poorhouses—Details of cost and adjustment,	43
Famine ceased in September, 1869, but prices still high,	44
THE TERAI.—Government as landlord specially responsible—Dependence of people— Favourable position,	44
The drought—Suffering among emigrants,	44
Liberal measures—Advances—Labour relief, &c.,	44
Prices of grain—Table—Scarcity in outturn of 1869,	45
Traffic—Importations—Sensitiveness of market,	45
The famine not prejudicial to the Terai,	45

CHAPTER V.—THE ALLAHABAD DIVISION.

GENERAL REMARKS.—Facilities for trade—Irrigation—Description of Bandelkhund— Failure in Banda and Hameerpore, and parts of Allahabad and Futtichpore,	46
---	----

	PAGE.
Review of the season—Commissioner's account of agricultural operations—Condition of Allahabad, Futehpore, and Banda in May, 1869—Causes of distress—Sufferings of poor—No demand for labour—Classes of applicants—Scarcities of population in distressed tracts,	46, 47
The two crises,	47
CAWPORE. —Protection from drought—Trade—Illustrated by railway returns and other statistics,	47, 48
No famine—Effects of rain in September, 1868,	48
Injury caused by excessive rain in the autumn of 1869,	48
FUTTEHPORA. —Absence of canals—Facilities for trade,	48
Distressed tracts—Mr. Court's description—No general famine—Beneficial effects of rain in September, 1869—Food-grain of poorer classes destroyed—Irrigation stimulated— <i>Rubbee</i> outturn,	48, 49
Labour relief—Details of cost and adjustment,	49
ALLAHABAD. —Comparative fertility—The <i>Trans-Jumna</i> pergunnahs—Deficiency of irrigation—Paralysis,	49, 50
Facilities for trade,	50
The drought—Storm in September, 1868—The spring harvest—Famine in Barah and Kheyragurh—Poorhouse at Barah,	50
Charitable relief—Details—Mr. Court's visit to Meja—Cost,	50, 51
Labour relief—Cost and adjustment,	51
Statistics of grain traffic incomplete—Railway returns,	51
JOUNPORE. —Drought severe, but famine averted by September rain,	51, 52
Details of relief, both labour and charitable, and estimate of imports,	52
HUMNAPORA. —Liability to drought—Soil described—Sparse population,	52
The drought—Worst tracts—Rapid drainage— <i>Rubbee</i> fair,	53
Measures of relief—Poorhouses—Applicants—Numbers—Cost,	53
Labour relief—Special works—Numbers and classes employed—Works other than relief,	53-55
Remissions and suspensions of revenue,	55
Intensity of suffering—Food eaten—Loss of cattle—Cholera,	56, 56
Trade,	56
BANDA. —Causes of distress—Outturn of harvests—The worst tracts—Classes requiring relief,	56
Measures of relief—Numbers employed—Description of special famine works,	56, 57
High rates explained—Mortality from sunstroke,	57
Poorhouses—Numbers relieved—Total charges incurred,	57
Table of prices—Remarks thereon,	58
Traffic—Exports in the autumn of 1869—Estimate of quantity,	58

CHAPTER VI.—THE BENARES DIVISION.

GENERAL REMARKS ON THE DIVISION. —Climate, irrigation, and means of communication—Distress in Mirzapore—Immunity of Goruckpore and Bustee,	59
Distress in Azimgurh, Ghazeepore, and Benares—Measures of relief,	59, 60
MIRZAPORE. —The drought and its effects— <i>Kharreef</i> outturn,	60
Measures adopted—Supply of grain—And orders issued by the Commissioner,	60, 61
Famine works in Mirzapore Tehseel—Details of number and cost—Outturn of work—Description of principal works—Projects undertaken from local funds—Charges and adjustment,	61, 62
Poorhouse relief,	62

CHAPTER VII.—THE JHANSIE DIVISION.

GENERAL REMARKS ON THE DIVISION. —Inferiority to other divisions—Severity of famine—Condition of division in October, 1868,	63
Colonel Lloyd's memorandum—Exceptional state of Jalon—Previous seasons—Drought in 1868—Rain-fall—Rise of prices—Symptoms of distress—Change produced by September rain—Sufferings among artisans—Prospects considered—Different soils— <i>Rubbee</i> prospects—State of Lullitpore—Comparison with previous famines—Anticipation of distress and need for relief,	63-65
JALOUN. —Dependent on rain—Trade important,	65
The drought—Outturn of harvest—Suspensions—Imports,	65, 66
Measures of relief—Poorhouses and private charity,	66
Relief works and charges—Conclusion,	66, 67

	PAGE.
JHANSI. —Unfavourable situation—Poverty of soil and people—Rains of 1868, ...	67
Floods of 1869— <i>Kharrey</i> lost, ...	67
Failure of food—Arrangements made—No interference with trade, ...	67, 68
Traffic—Sources of supply, &c., ...	68
Epidemics and mortality, ...	68
Relief—Poorhouses—Numbers—Course of distress—Foreigners, ...	68-70
System adopted—Cost, ...	70
Famine works—The most important described—High rates—Numbers employed— Summing up of measures, ...	70, 71
Orphans—Emigrants—Traces of the famine, ...	71, 72
LULLITPORE. —Poverty—Want of irrigation—Crops, ...	72
Drought and its effects—Rain in September, December, and February, 1869— Cholera, and failure of supplies during rains of 1869—Improvement in October, ...	72, 73
Relief—Works sanctioned—Numbers and cost—Course of distress, ...	73, 74
The Lullitpore tanks—Description—Not remunerative—Extravagant cost, but works useful in saving life—Opinions of officers—Excellent system, ...	74, 75
Poorhouses—Numbers relieved—Localities—Good arrangements—Precautions taken —Effects of famine—Mortality—Loss of cattle—Cholera—Advances taken to buy food—State of the district in 1871—Large suspensions, ...	76, 77
CHAPTER VIII.—THE KUMAON DIVISION.	
THERE WAS NO FAMINE. —Light rain—Supplies from the Bhabur—Routes of grain traffic. Employment given—Effect of drought, ...	78
CHAPTER IX.—THE AJMERE DIVISION.	
Dual administration, ...	79
CLIMATE. —Uncertainty of seasons—Embankments and dykes—Report on the condition of tanks—An ideally good season—Dependence of revenue on tulace, ...	79, 80
AJMERE COMPARED WITH MHAIRWARA. —Rain-fall for 10 years, ...	80
CHARACTER OF POPULATION. —The Mhairs—Description of Ajmere peasantry, ...	80
ACCOUNT OF THE SEASON. —Rains in autumn of 1868, and state of the country at the end of the year—Precautions—Prices— <i>Rubbee</i> outturn—Locusts and devastation caused by them—Fever, ...	80-82
PRICES. —Table—High prices after harvest—Imports—Prices of June, 1869—Stocks falling, ...	82, 83
THE DIRECT SYSTEM. —Introduction of contract system in January, 1869—Correspondence with Government—Reserve works—The scheme—Reason why reserve works were not undertaken—Commission of inquiry—Report and subsequent correspondence in Public Works Department and Revenue Department —Arguments used, &c., ...	83-86
<i>General remarks on the discussion.</i> —Why the Rajpootana plan failed—Why Government did not insist upon the introduction of the direct system earlier, ...	86, 87
RELIEF WORKS. —Numbers employed by Public Works Department on district works, &c.—The Civil famine relief works—Numbers—Rations—Closure in March, 1870 —Reliance of Deputy Commissioner on the Public Works Department, ...	87-90
CHARGES, ...	90
TOTAL NUMBERS EMPLOYED, ...	90
CHARITABLE RELIEF. —Numbers—Course of distress—Diet—Mortality—Influx of fo- reigners—No remunerative labour exacted— <i>Pardah-nushens</i> , ...	90-92
IMPORTATION OF GRAIN. —Proposed in September, 1868—Again in autumn, 1869—Corres- pondence with the Government of India—The object of Government explained— Causes why the importation was unprofitable, &c., ...	92-96
PRIVATE GRAIN ASSOCIATIONS. —Plan and method, ...	96
EFFECT OF IMPORTATION ON PRICES AND TRADE, ...	96
FURTHER MEASURES OF RELIEF. —Remission of revenue— <i>Tucusse</i> , ...	96
EFFECTS OF THE FAMINE. —Mortality—Estimate of deaths—Comparison of systems in Ajmere and elsewhere—Orphans, ...	97
RETURNING PROSPERITY. —Favourable account—Famine its own cure, ...	97, 98
BENEVOLENCE OF MISSIONARIES, ...	98
CHAPTER X.—WORKS CONDUCTED BY THE PUBLIC WORKS DEPARTMENT, OR IRRIGATION BRANCH.	
THE AGRA CANAL. —Not properly speaking a famine work—The design—Details of labourers employed, ...	99

	PAGE.
ROHILKHAND CANAL WORKS.—Description—Numbers employed—Comparative cost of the work,	99, 100
IRRIGATION WORKS IN MERUT.—Not regular famine works—Numbers employed and cost,	100
EASTERN GANGES CANAL.—The work, when and why undertaken—Arrival of work-people—Cost of the work—Labourers—Diminution in autumn—Proportions of men, women, and children—Sanitary arrangements—Classes of people who applied for work,	101-103
THE TIMLEN PASS.—Description and numbers employed—Conclusions drawn from table of numbers and percentages,	103, 104
MORADABAD AND TIGRES ROAD.—Preparation for the work—Details of numbers and cost—Arrangements for supplies—Rates of work—Proportions of able and infirm—Conclusions,	104, 105
KUCKLA GHAT.—Description of the work—Details of numbers employed and cost—Conclusions drawn from the figures—Cost compared with the value of work—Good sanitary arrangements,	106
CHAPTER XI.—FINANCIAL.	
CHARGES divided into four principal parts,	107
LABOUR RELIEF.—Government share of charges,	107
CHARITABLE RELIEF.—Table—Transactions of the Central Committee—Charges summed up,	108, 109
LAND REVENUE.—Balances—Table—Remissions—Explanation of large remission in Banda—Eventual loss,	109, 110
TUCCAVEN.—For permanent works—For seed and cattle,	110, 111
ABSTRACT OF TOTAL COST.—Comparison with previous famines,	111, 112
ADJUSTMENT.—Correspondence with Government of India—Decision arrived at,	112
CHAPTER XII.—ON THE INFLUENCE OF CANALS.	
IMPORTANCE OF CANALS.—Projects for extension—Benefits conferred by canals in 1868-69—Estimate of produce—Results compared with 1860-61,	113
DISTRIBUTION OF FOOD-CROPS.—Effect of orders of Government—Water not taken until too late for <i>khureef</i> grain—Distribution of miscellaneous crops—Of important food-crops—Conclusion,	113, 114
CHAPTER XIII.—ON PRICES OF GRAIN.	
TABLES OF PRICES.—Wheat the main staple—Variations in rates—Equalization of prices—The cause—Changes in prices with vicissitudes of the season—Traffic on the Ganges Canal—Remarks and analysis,	115-117
THE MARKETS IN THE SPRING OF 1869.—Exhaustion of stocks—Effect of railways—Crisis in summer of 1869,	117
EXPORTS OF GRAIN.—Traffic across the customs line in the Agra, Muttra, and Jhansi Divisions—Export to the Punjab—Traffic on the Delhi Railway—Exports to Bendelkhand,	117-119
IMPORTS.—Supplies from Oudh and Bengal—Reduction of railway charges—Comparison of traffic on the East India Railway for five years—Grain carried while the reduced rates were in force—Rice received at principal stations in the North-Western Provinces—Traffic in grain and pulse—Current down the line—Imports at minor stations excluded—Equalization of prices furthered by reduction of rates—119-121	119-121
PRESURE OF FAMINE AS INDICATED BY PRICES.—The Central Committee's comparative table—Observations thereon—Scarcity of coarse grains—Comparison of highest prices in 1837-38, 1860-61, and 1869,	121-123
SUGGESTIONS.—Importance of facilitating free communication—Advantages of projected railways—Roads in the Jhansi Division,	124
CHAPTER XIV.—CONCLUSION.	
MORTALITY.—Absence of reliable statistics—Deaths in Ajmere and other districts—Official returns for 1868-69 and 1869-70—They are corroborative of district reports—No estimate possible of deaths from starvation,	125, 126
LOSS OF CATTLE.—Disastrous effects—Statistics—Calculation of loss,	126
INCREASE OF CRIME.—No attacks on grain stores—Statistics,	126, 127
THE CLASSES WHO REQUIRED RELIEF.—Agriculturists suffered little—Want of employment—Classes of applicants in several districts—Census in Bijnour—Conclusions drawn therefrom,	127, 128
