TO

MY ESTEEMED FRIEND,

SAMUEL D. GROSS, M.D., LL.D., D.C.L. OXON.

EMERITUS PROFESSOR OF SURGERY IN THE
JEFFERSON MEDICAL COLLEGE OF PHILADELPHIA:

WHO ADORNS THE PROFESSION OF SURGERY,

THESE PAGES

ARE MOST RESPECTFULLY DEDICATED.

PREFACE.

THESE observations are, for the most part, based upon cases which, from time to time, I have brought under notice at various Medical Societies. The important advance recently made in the treatment of Stone in the Bladder has necessarily added to the interest of this subject, and must be my apology for the opinions I have here ventured to express.

I have also added a description of a method of tapping the bladder, which I believe has the advantage of safely affording something more than temporary relief.

APRIL, 1888.
