Import duties of Mexico.

DERECHOS DE IMPORTACIÓN EN MEXICO.

In the preparation of these tables, the official classification of the Mexican tariff has been followed, which differs materially from that of the United States.

The rates are calculated on the basis of the official valuation of foreign coins issued by the Director of the Mint of the United States, April 1, 1891, in which one Mexican peso is valued at 80 cents United States gold.

Equivalents.

1 kilogram = 2.2046 pounds.
1 square meter = square 1.196 yards.
