THOUGHTS ON THE ORIGIN, CHARACTER, AND
INTERPRETATION OF SCRIPTURAL PROPHECY.
IN SEVEN DISCOURSES.

"This is the most lucid, correct, and satisfactory general treatise on the Scriptural Prophecies that has ever fallen in my way. The author has gone over the whole ground, surveyed every part critically and candidly, and presents us with a chart to guide future investigators. On the subject of a double sense, or what Dr. Lowth calls the mystic allegory, I have seen nothing so full and satisfactory. These profound discourses dispel mists from the mind, and make the subject clear."—*Rev. James Murdock, D. D.*

"I am acquainted with no work on the subject of Prophecy which is equal to your Discourses in the comprehensive, scriptural, and philosophical views which they present. While you have defined with clearness the principles of interpretation which should guide us in the exposition of Prophecy, you have also shown, by many felicitous examples, how these principles are to be applied, so as to render their importance obvious to every intelligent reader. The work should be in the hands of all theological students."—*Rev. J. M. Mathews, D. D.*

A D V E R T I S E M E N T .

THE reader will perceive that the eighth Discourse does not make a part of the series. It was added chiefly on account of the connection of the subject of it with that of the others.

To the late Senior Class, and the present Middle and Senior Classes, of the General Theological Seminary.

MY DEAR YOUNG FRIENDS,—

In compliance with your kind request, this little volume on the Origin and Character of Scriptural Prophecy now makes its appearance. I offer no apology for the publication, as it was within my power to withhold it. But, believing that the Discourses embodied principles both correct in themselves and practically useful, I felt the less reluctance to acquiesce in your wish, and to give them publicity. I was further influenced by the consideration that the time which, during our divinity course, can be devoted to this most interesting and important department, is so very limited, that the student can hardly get even the most meagre outline of it. And yet its usefulness and practical bearing can scarcely be overrated, especially in the present state of the Christian world. Although the few pages here presented to you contain little more than general intimations and principles, they may suggest better
