BROOKLYN INSTITUTE OF ARTS AND SCIENCES

**THE FIFTEENTH YEAR
BOOK OF THE BROOKLYN
INSTITUTE OF ARTS
AND SCIENCES, 1902-1903**

THE EDUCATIONAL DIRECTORY

Polytechnic Institute

85 Livingston Street, BROOKLYN

A School of Arts and Engineering for young men, offering the following four-year courses of collegiate study:

1. LIBERAL ARTS COURSE, in language, literature, history, and philosophy, leading to the degree of Bachelor of Arts.
2. ELECTRICAL COURSE, in theoretic and applied electrical science, laboratory work, electrical measurements, and testing, leading to the degree of Electrical Engineer.
3. CIVIL ENGINEERING COURSE, in mathematics, physics, mechanics, and field work, leading to the degree of Civil Engineer.
4. MECHANICAL ENGINEERING COURSE, in mathematics, physics, mechanics, shop work, and machine design, leading to the degree of Mechanical Engineer.
5. CHEMICAL COURSE, in physics, mathematics, chemical analysis, assaying, and industrial and commercial chemistry, leading to the degree of Bachelor of Science.

The Institute also offers two post-graduate courses of one year each, leading to the degrees of Master of Science and Master of Arts.

Its equipment embraces thoroughly appointed Electrical, Chemical, Physical, Hydraulic and Steam Laboratories; Carpentry and Machine Shops; an ample Library; Gymnasium, Baths and Swimming Pool.

Catalogues mailed on application.

BRAINERD KELLOGG, LL.D., Dean of the Faculty.

Polytechnic Preparatory School

95 Livingston Street, BROOKLYN.

A thoroughly organized Preparatory School for boys, fitting them for the Polytechnic Institute, for any other American College or School of Technology, or for business life.

It provides Intermediate and High School Courses of Study, extending approximately over six years, and embracing the four following courses:

1. SCIENTIFIC COURSE, fitting the student to enter any American Institute of technology.
2. CLASSICAL COURSE, preparing for entrance to the academic department of classical colleges.
3. LATIN SCIENTIFIC COURSE, fitting for entrance to any college not requiring Greek for admission.
4. COMMERCIAL COURSE, preparing the student broadly and thoroughly for entrance upon business life.

Athletic sports and exercises are promoted, under intelligent direction, both in the Gymnasium and in the Field.

The School provides ample Laboratories and Library; a well-appointed Dining-room, where students may obtain a wholesome luncheon; Swimming Pool and Baths.

Catalogue mailed on application.

FRANCIS BANSOM LANE, M.A., M.D., Principal.

HENRY SANGER SNOW, A.B., LL.D., President.

THE EDUCATIONAL DIRECTORY

ADELPHI COLLEGE
AND
ADELPHI ACADEMY

Three Collegiate Courses.

1. **CLASSICAL.** Four years of required and optional work in classics, mathematics, history, philosophy, science and modern languages.

2. **LITERARY.** Four years of required and optional work in English literature, history, science, languages, philosophy, mathematics, classics and pedagogics.

3. **SCIENTIFIC.** Three years of required work in mathematics, natural history, English literature, political history, and in all branches of chemical and physical science. In the fourth year optional work in applied sciences.

The Classical and Literary Courses lead to the degree of Bachelor of Arts; the Scientific Course to the degree of Bachelor of Science. All Adelphi degrees are awarded in the name of the University of the State of New York, and are signed by the officers of the Board of Regents as well as by the officers of the College. The Adelphi is the only Brooklyn institution in which a woman can obtain a collegiate degree. It is the only unsectarian college in Brooklyn which maintains a Classical Course for the B.A. degree.

The Academic work comprises, first, a kindergarten and primary department, and, second, a grammar department. A modern language may be studied throughout these grades; Latin in the two highest years. Third, a sub-collegiate department prepares for any college. Certificates given. Academy diploma in any one of three courses given at end of Fifth Year. Fourth, the Art School is under the charge of Prof. John B. Whitaker. Fifth, the Normal Course gives a thorough two years' training in kindergartening and in drawing.

The Adelphi maintains six scientific laboratories and a library and reading room. The studios for the Art School

occupy the whole of one floor. There are spacious gymnasiums and a playing field. Students may be admitted at any time to any department of Adelphi Academy, provided there is a vacant seat in the grade room to which the student would be assigned. Examinations for admission to the Collegiate Courses are held and applications for admission to the Academy are received September 16-18, 1903.

During the last six years of the Academy Course, all instruction is in the hands of specialists; in the earlier grades special teachers and grade teachers are associated together.

The Normal Courses and the College Course in Pedagogics are officially approved by the State and City Superintendents of Public Instruction. The buildings fill the entire end of the block between Lafayette avenue and Clifton place, upon St. James place. Convenient means of access are provided by the elevated railways (Myrtle, DeKalb, Greene and Vanderbilt stations), and by the DeKalb, Gates, Fulton and Vanderbilt electric cars. Special cars without charge from the Park Slope, Flatbush, and Stuyvesant Heights sections.

New elevator service.

For catalogs and other information address G. H. TURNER, Secretary, Adelphi College, Brooklyn, N. Y.

CHARLES H. LEVERMORE, PH.D.,

President of the Faculties.

HON. TIMOTHY L. WOODRUFF,

President of the Corporation.

THE EDUCATIONAL DIRECTORY

The Berkeley Institute

185 LINCOLN PLACE

Near Main Entrance to Prospect Park

A school for the complete education of Girls. All departments from Kindergarten to College, including departments of Art and Physical Culture. Full course of study twelve years in length, or fifteen years, including three years in the Kindergarten and Intermediate grades.

Special attention given to preparation for college. Students certificated in all subjects. The work of the last two years of the Collegiate Course is college work, and students completing this work receive the Diploma of the Institute.
