## ADVERTISEMENT.

---

THE following little work has been written, by request, for the use of Families and Church Schools. The present volume is chiefly designed as a Manual for Teachers. An Abridgment, for the use of the Children, has also been prepared. Both volumes have been carefully compiled from the best and most recent sources of information. They are intended to exhibit the principal truths and facts of Geography, in connection with sound views on those religious subjects which such a work necessarily embraces.
