EXPLANATIONS.

THE following Catalogue has been prepared for the convenience of the Librarian and Students of the University. As the time which could be devoted to its preparation would not admit of a detailed account of the subjects, edition and other particulars of each work, which are necessary to a full and complete Catalogue, nothing farther has been attempted than an enumeration of the titles, briefly stated as might be—and alphabetically arranged, generally with reference to the subjects.

The capitals denote the case, the small letters the shelf, and the numbers, the position on the shelf.

The library has been enriched by many valuable donations, only a few of which can be here noticed.—The most valuable was made by Thomas Chapman, Esq. of Camden, N. J. and is called, as a token of respect to the Donor, the Chapman Library of the Wesleyan University.—This portion of the Library, in number about 2000 vols. consists of all the books in cases D, E, & F, except such as are marked with a †. There are among them 177 folios, and 121 quartos. Of these 1655 vols. were fixed at a low price—one half of the amount was presented by Mr Chapman, and the other half paid by the Trustees. The remainder of the 2000 volumes was given with no reserve but the privilege of adding to the number. Among the latter, is a splendid copy of the Antwerp Polyglot, in 8 folio volumes. That part of the Catalogue distinguished by a †, numbering 375 volumes, was the Library of the late John Summerfield, and presented to the University by his brother-in-law, James Blackstock, Esq. of N. Y. Those distinguished by a †, are books presented by the British Conference, valued at 100*l*. Other valuable presents have been made by Authors and other individuals, of which more specific notice cannot be taken in this place.
