--------------------------------------	-----

FOREWORD

HAVING absorbed the two preceding books, on Fundamentals of Speech and Gesture, the speaker has acquired all he need know concerning *delivery* of a discourse. He will now want to put his newly acquired knowledge to practical use.

He will find in this volume a number of models that will serve him well in any emergency;—brief, adroit, entertaining—addresses to fit almost any occasion.

They are grouped for easy reference and each speech is sparingly marked for the elements of Pause, Inflection, Emphasis and for Gesture and Climax, so that it will be a simple matter to appropriate them to immediate use.

Whether these addresses be used as models or as a source of inspiration, let the speech be spontaneous and whole-hearted. The highest art is to conceal art, and a finished speaker strives to attain such perfection that he can eventually abandon all rules and yield himself entirely to the spirit of his discourse.

Such a consummation will come in time through assiduous practice—these Occasion Speeches will further progress.
