CAMP AGRA, 26th January 1876.

SIR,

I am directed by His Royal Highness the Prince of Wales to acknowledge, with thanks, the copy of the book which you have been so good as to send him through His Honor the Lieutenant Governor of the Punjab, and which has been graciously accepted by His Royal Highness.

I remain,

Sir,

Yours very faithfully,

(Sd.) H. B. E. FRERE.

To

SIRDAR ATTAR SINGH,
OF BHADAUR.

P R E F A C E .

These Sakhis were originally written in a very crude language, intermingled with poetry. Through them we become acquainted with the origin of the Seikh religion ; the manners and customs of the Seikhs ; and many of their prophecies bearing upon political and ecclesiastical matters. Such prophecies are always found scattered through their historical books, as in the Hadis of the Mahomedans, and are the main sources of the errors into which they have been often led.

To Government a book like the present, is no doubt of great value ; and, being myself duly impressed with its importance, I venture to offer it for the gracious acceptance of His Royal Highness, the Prince of Wales.

SIRDAR ATTAR SINGH,
OF BHADOUR.

LAHORE, }
The 17th January 1876. }

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for ensuring transparency and accountability in financial operations.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to ensure the validity of the results.

3. The third part of the document describes the different types of data that can be collected and analyzed. It includes information on both quantitative and qualitative data, as well as the various sources from which data can be obtained.

4. The fourth part of the document discusses the importance of data analysis in making informed decisions. It explains how analyzing data can help identify trends, patterns, and relationships that are not immediately apparent from the raw data.

5. The fifth part of the document provides a detailed overview of the different types of data analysis techniques. It covers both statistical and non-statistical methods, as well as the various software tools and applications used for data analysis.

6. The sixth part of the document discusses the importance of data visualization in presenting the results of data analysis. It explains how visual representations of data can make it easier to understand and interpret complex information.

7. The seventh part of the document provides a detailed overview of the different types of data visualization techniques. It covers both traditional and modern methods, as well as the various software tools and applications used for data visualization.

8. The eighth part of the document discusses the importance of data security and privacy in handling sensitive information. It explains the various measures that can be taken to protect data from unauthorized access and disclosure.

9. The ninth part of the document provides a detailed overview of the different types of data security and privacy measures. It covers both technical and organizational measures, as well as the various software tools and applications used for data security and privacy.

10. The tenth part of the document discusses the importance of data governance in ensuring the effective and efficient use of data. It explains the various roles and responsibilities involved in data governance, as well as the various software tools and applications used for data governance.

THE NATURE OF THE SEIKH PROPHECIES.

Injustice, tyranny, and misrule, are the main sources of commotions ; but as these disturbing agents have vanished under the present administration, which has introduced laws and regulations suited to the age, and to the altered condition of the country, having refrained from interference in religious matters, far greater peace and tranquillity, than existed at any former period, have been secured. There should have been no mutinies under such an administration, and a continuous peace should have reigned over the country ; but we find that disturbances have taken place. These are to be attributed to the religious prejudices of the people, by whom the very tolerance of the government is regarded as a hardship. The old prophecies affect their minds to such a degree, that they are often tempted to strike for freedom. Without multiplying in-
