PREFACE TO SECOND EDITION.

This little book, judging from the way the first edition sold, seems to have filled "a long felt want." There have been some additions made to the new edition and the headings under Therapeutics and Materia Medica have been put in black letter type.

PREFACE TO THE THIRD EDITION.

We are gratified to know that there is no abatement in the demand for our little book and in consequence a third edition is asked for. The book was designed not for a "domestic practice," but to meet the steady call for a small, inexpensive work that would give the enquirer an insight into the theory, materia medica, therapeutics, pharmacy and dosage of Homœopathy, from which he could see whether it would be well for him to go deeper into the subject. Hundreds of copies have been sold to physicians of other schools of practice, and we have reason to believe that they have had their effect for the welfare of humanity. The book is necessarily elementary, but, we hope, the elements are such that on them can be built a sound structure of curative medicine. The aim has been to give, in the Therapeutics, the "keynotes" and the therapeutic range, of each drug, which will be a "memory refresher" to homœopathic physicians and a guide to all others.

December 1, 1913.

BOERICKE & ANSHUTZ.
