TABLE OF CONTENTS.

	Page.
Introduction	1
Iron	1
General Statement	1
Anamorphism of Magmatic Segregations	1
Anamorphism of Igneous After-Effects	2
Anamorphism of Residual Limonites	2
Cle Elum Iron Ores	2
Discussion	5
Anamorphism of Iron Carbonate and Silicate Rocks	6
General Statement	6
Eastern Mesabi District, Minnesota..	7
Western Gogebic District, Wisconsin.	9
Western Marquette District, Michigan	10
Gunflint District, Minnesota.....	10
Discussion	11
Llano-Burnett Region, Texas.....	12
Discussion	14
Anamorphism of Iron Oxides	15
General	15
Contact Metamorphosed Ores	16
Republic District of Michigan	16
Champion Mine, Michigan	16
Dynamically Metamorphosed Ores	17
The Vermilion and Upper Negaunee Ores	17
Discussion	18

TABLE OF CONTENTS, Continued.

Page.

Iron, Continued.

Anamorphism of a Secondarily Infiltrated Limonite Deposit	19
Talladega Gray Ores	19
Discussion	24
Production and Reserves of Anamorphosed Iron Ores	25
Copper	26
General Statement	26
Ore Bodies Formed as the Result of Anamorphism.	27
Ore occurring as Disseminations in Amphibolitic Schists	27
The Encampment District, Montana	27
Copper Deposits in Chaffee, Fremont, and Jefferson Counties, Colorado.	31
Copper Deposits of the Santa Fe Range and Upper Pecos River, New Mexico	34
Copper Deposits of the South Mountains, Pennsylvania	37
Ore occurring as Replacements of Limestones near Amphibolitic Rocks	39
Planet, Signal, and Little Butte Properties, Arizona	39
Ore occurring in Shear Zones	43
Carnation, Quartz King, Wardwell and Osbourne Properties, Viati Mining Company and Copper Basin Prospects	43
Ore Bodies Modified by Anamorphism	47
Anamorphosed Contact Deposits	47
Deer Isle Mine, Maine	47
Anamorphosed Fissure Veins of the Replacement Type and Disseminated Ores along Fracture Zones	47
