## HAYDN'S DICTIONARY OF DATES.

RELATING TO ALL AGES AND NATIONS; FOR UNIVERSAL REFERENCE;

Comprehending Remarkable Occurrences, Ancient and Modern—the Foundation, Laws, and Governments of Countries—their Progress in Civilisation, Industry, Literature, Arts, and Science—their Achievements in Arms—their Civil, Military, and Religious Institutions, and particularly of the British Empire. By JOSEPH HAYDN. ELEVENTH EDITION, revised and greatly enlarged by BENJAMIN VINCENT, Assistant Secretary and Keeper of the Library of the Royal Institution of Great Britain.

"On a former occasion we expressed our sense of the value of this work, which is the most universal book of reference in a moderate compass that we know of in the English language. Its original 15,000 articles, all studded with facts, as thick as the currants in a Christmas pudding, have gone on increasing in number and dimensions till they now make a volume of 762 pages. . . Every pains has been taken to cram it full of the latest facts, and to render this, its Tenth Edition, indispensable."—*Times*, Nov. 30, 1861.

"The most elaborate biography could not give a better idea of Thomas Hood than we obtain from the simple Memorials now published. . . . These letters perfectly reflect his character with all its fun, geniality, and tenderness. . . . Much or little, however, all is well done. . . . The work is a complete success."—*Times*.
