PREFACE

THESE selections from Eutropius are intended as an addition to the rather limited choice of Latin authors offered younger pupils in American schools. The book has been edited in the conventional manner, with such aids as are supposed to assist the pupil in mastering the text without unnecessary effort. The orthography and quantity markings conform essentially to the usage followed in the other members of the series. Marx and Lewis are the authorities followed.

As a school author Eutropius offers the advantage of giving a concise account of some of the more salient episodes of Roman history. The book is a mere epitome, and therefore some of the events that are of most interest in tracing philosophically the progress of the Roman people in civilization and government are either entirely omitted or are treated with such brevity as to lose their main value. The present selections cover such portions of the history of the republic as it is well to have the pupil familiar with by the time that he reads Caesar and Cicero. Several verbal changes—quite permissible, considering the first object of the book—have seemed advisable in connecting passages separated in the original text. Some attempt at originality has been made in the theme work, the general idea of which has been taken from the best intermediate and grammar grade language books,—a source from which many valuable hints may be drawn in teaching Latin.

EUTROPI HISTORIA ROMANA.

I. *The Roman Kingdom, 753-509 B.C.*

Römānum imperium, quō neque ab exordiō ullum ferē minus neque incrementis tōtō orbe amplius hōmāna potest memoria recordārī, a Rōmulō exordium habet, qui Rhēae Silviae, vestālis virginis, filius et, quantum putātus est, Martis cum Remō frātre quō partū ēditus est. Is cum inter pastōrēs lātrōcinārētur, decem et octō annōs nātus urbem exiguam in Palātīnō monte cōstituit. 5

Conditā civitatē, quam ex nōmine suō Rōmam vocāvit, haec ferē ēgit. Multitudinem finitimōrum in civitatem recēpit, centum ex seniōribus lēgit, quōrum cōsiliō omnia ageret, quōs senātōrēs nōmināvit propter senectūtem. Tum, cum uxōrēs ipse et populus suus nōn habērent, invitāvit ad spectāculum ludōrum vicinās urbi Rōmae nātiōnēs atque cārum virginēs rapuit. Commōtis bellis propter raptārum iniūriam vicinās civitatēs plūrēs vicit. Et cum ortā subitō tempestāte nōn compāruisset, annō 15 regnī tricēsimo septimō ad deōs trānsisse crēditus est et cōsecrātus. Deinde Rōmae per quīnōs diēs senātōrēs imperāvērunt et his regnantibus annus ūnus complētus est. 20

Posteā Numa Pompilius rēx creatus est, qui bellum quidem nullum gessit, sed nōn minus civitatī qua Rō-

mulus profuit. Nam et leges Romanis morisque constituit, qui consuetudine proeliorum iam latrones ac semibarbari putabantur, et annum descripsit in decem mensēs, prius sine aliquā supputatione confusum, et
 5 infinita Romae sacra ac templa constituit. Morbo decessit quadragesimo et tertio imperi anno.

THEME EXERCISE.¹

1. A quo initium habet imperium Romanum?
2. Quo in monte condita est urbs nova?
3. Unde crevit populus?
4. Qui principes civitatis facti sunt?
5. Quo modo etiam uxoribus auxit populum Romulus?
6. Rege primo mortuo qui Romae regnaverunt? Quam diu?
7. Quod nomen insequenti regi erat?
8. Qua de causa praedones ac semibarbari putabantur Romani?
9. Qui civitati profuit Numa?
10. Quo pacto sub Numā stabant civēs antea bellicosissimi tranquilli et moribus obtemperantes?

Huic successit Tullus Hostilius. Hic bella reparavit, Albanos vicit, qui ab urbe Romā duodecimō miliariō sunt, Volentes et Fidēnates, quorum alii sextō miliariō absunt
 10 ab urbe Romā, alii octāvō decimō, bellō superavit, urbem ampliavit adiecto Caeliō monte. Cum trigintā et duos annos regnasset, fulmine ictus cum domo suā arsit.

¹ Each question should be answered by a complete statement. For instance, the first question below should not be answered, "A Romulo," but by some such sentence as, "A Romulo Romanum imperium initium habet," or, "Romulus Romam condidit, a quo etiam exordium habet Romanum imperium." After these answers have been given orally in class, they should be combined and amplified so as to form a continuous theme, which should be assigned as written work for the following lesson.

Post hunc Ancus Marcius, Numae ex filiâ nepôs, suscepit imperium. Contrâ Latînos dimicâvit, Aventinum montem civitatî adiecit et Ianiculum, apud ostium Tiberis civitatem suprâ mare sexto decimo miliariô ab urbe Rômâ condidit. Vicésimo et quârtô anno imperi morbo periit. 5

Deinde rēgnum Priscus Tarquinius accēpit. Hic numerum senâtorum duplicâvit, circum Rômæ aedificâvit, ludôs Rômânôs instituit, quî ad nostram memoriam permanent. Vicit idem etiam Sabînos et nōn parum agrōrum sublâtum Isdem urbis Rômæ territoriô iunxit, primusque 10 triumphâns urbem intrâvit. Mûros fecit et cloacâs, Capitôlium inchoâvit. Tricesimo octâvo imperi anno per Anci filiôs occisus est, régis eius cui ipse successerat.

THEME EXERCISE.

1. Quî rēx Numae successit ?
2. Quem montem addidit urbi ?
3. Quôs populôs vicit ?
4. Quô casû mortuus est ?
5. Contrâ quôs populôs dimicâvit Ancus Martius ?
6. Quibus montibus adiectis urbem ampliâvit ?
7. Ubi urbem novam condidit ?
8. Qui rēx autem circum aedificâvit et ludôs Rômânôs instituit ?
9. Quibus victis urbem triumphâns intrâvit Tarquinius ?
10. Eratne primus qui triumphâvit ?
11. Per cuius filiôs occisus est ? Quotô imperi anno ?

Post hunc Servius Tullius suscepit imperium, genitus ex nobili femina, captivâ tamen et ancillâ. Hic quoque 15 Sabînos subegit, montes tres, Quirinâlem, Viminâlem, Esquilinam, urbi adiunxit, fossas circum mûrum duxit. Primus omnium cēsum ordinâvit, quî adhuc per orbem terrarum incognitus erat. Sub eô Rômâ omnibus in
