The Accumulated Fund of this Society (exceeding £200,000) is of unusual magnitude in proportion to its liabilities.

All the Profits belong to the Assured, and are applied to the gradual reduction and ultimate extinction of their premiums, a result which may be expected to occur, in the average of cases, in about 20 years from the date of the Policy.

Funds for the Education of Children and for their Establishment in Life may be provided on unusually favourable terms, on a new system lately introduced by this Society, based upon Tables of Mortality specially constructed for the purpose.

Persons residing in the Country can effect Assurances without personal attendance in London.

Prospectuses and further information forwarded post free on application.
