---

THE favourable reception which this little Work has met with, and the request of several friends, have led to the publication of a new and larger edition, a part of which has been printed on a less expensive paper, and put up in thinner covers, owing to the wish expressed by several persons to have it in a cheap form for distribution. A few references are added, but there is no material alteration in the book, except a few words added at the end of the fourth chapter.
