## PREFACE

THIS Handbook has a definite practical purpose, as follows :

1. On the basis of experience in training and supervising teachers to point out a few of the positive requirements and limitations of schoolroom work.

2. In order to get economy of time and effort, to state plainly the chief principles and conditions for securing efficiency.

3. To set up concisely the standards and essentials of schoolroom practice.

4. To point out common faults and bad habits.

5. To show briefly the peculiar requirements of each common school study.

6. To give help and guidance to young teachers and to remind older teachers of wrong tendencies.

7. To suggest points of value to superintendents and supervisors.

American teachers as a body are progressive and are in a developing process. They must grow while they teach.

This book is particularly designed for use in Normal and Training schools.
